The iPINIONS Journal Anthony Livingston Hall, 2019-02-27 Current Events Hall takes aim at the global events of 2018 with a unique and refreshing perspective Topics in this volume include the following President Trump displaying brazen hypocrisies Complaining about Trump's hypocrisy is like complaining about a prostitute's promiscuity The Catholic Church covering up sins of pedophile priests These putative men of God cannot believe God exists They must reason that if he did he would have stopped priests from systematically abusing children long ago After all what God would allow a criminal sex cult to flourish as a holy church in his name Tiger Woods failing to win another major Tiger is becoming to PGA players what Hugh Hefner became to LA players the most popular guy in the game who everyone knows can't do it anymore Caribbean leaders condemning shithole Trump Haitian migrants pose a heavy unsustainable burden for the relatively small and poor countries of the Caribbean This explains why even though none have called Haiti a shithole some Caribbean leaders have treated Haitians like shit Meryl Streep hailing Harvey Weinstein as God That she said this is as much an indication of

how far Weinstein has fallen from grace as it is an indictment of how much even Streep was beholden to his power and influence Europeans doing more than Africans to solve Africa's migrant crisis Only a symbiosis of European colonial guilt and African umbilical dependence explains why Research showing the health benefits of bread No less an authority than the Bible decreed that bread and water are the staff of life Which is why I hereby curse Atkins and his spawn of ketogenic false prophets in the name of God Trump continuing bromance with Putin despite bipartisan criticism Trump is behaving like a teenage girl who was reprimanded by her parents for sneaking out for a booty call with a notorious bad boy And she responds by sneaking that bad boy into her bedroom and ends up pregnant

*Post-Truth Geographies* Barney Warf, 2023-09-05 This book explores the geographical dimensions and implications of the post truth era Opening with a defense of the Enlightenment and the continued significance of science objectivity and truth it then provides three key perspectives on the concept The first is a philosophical analysis of post truth Social theory in various forms has sutured knowledge and power in the process relativizing the nature of truth This process reaches its apogee under post modernism which questions the very nature of truth itself The second is the examination of the historical origins and development of the post truth world While post truth has a history that can be traced back to the 18th and 19th centuries more recently it has grown prolifically through the use of social media The book examines post truth as it appears in the yellow journalism of the Hearst newspapers Holocaust denial and contemporary attacks on science itself e.g. the anti vaccine movement denial of evolution Post truth becomes a central issue in Western politics following Brexit and the election of Donald Trump who uses it frequently to advance a reactionary political agenda Russian hackers weaponize it to interfere in the politics of Europe and the U.S. Fox News and other right wing outlets also play a central role One result is the proliferation of unfounded conspiracy theories such as QAnon Today autocrats and dictators the world over use fake news to maintain their power Finally this book links the rise of a post truth society to the dynamics of contemporary economic geography Knowledge intensive capitalism has greatly elevated the significance of symbolic workers or the creative class Geographically contemporary capitalism has accentuated

the agglomeration of producer services in large urban areas in which such workers labor Conversely rural areas and small towns have largely become repositories of the undereducated and thus are more susceptible to fake news

**The Misinformation Age** Cailin O'Connor, James Owen Weatherall, 2019-01-08 Empowering and thoroughly researched this book offers useful contemporary analysis and possible solutions to one of the greatest threats to democracy Kirkus Reviews Editors choice The New York Times Book Review Recommended reading Scientific American Why should we care about having true beliefs And why do demonstrably false beliefs persist and spread despite bad even fatal consequences for the people who hold them Philosophers of science Cailin O Connor and James Weatherall argue that social factors rather than individual psychology are what's essential to understanding the spread and persistence of false beliefs It might seem that there's an obvious reason that true beliefs matter false beliefs will hurt you But if that's right then why is it apparently irrelevant to many people whether they believe true things or not The Misinformation Age written for a political era riven by fake news alternative facts and disputes over the validity of everything from climate change to the size of inauguration crowds shows convincingly that what you believe depends on who you know If social forces explain the persistence of false belief we must understand how those forces work in order to fight misinformation effectively The authors deftly apply sociological models to examine how misinformation spreads among people and how scientific results get misrepresented in the public sphere Andrea Gawrylewski Scientific American A notable new volume The Misinformation Age explains systematically how facts are determined and changed whether it is concerning the effects of vaccination on children or the Russian attack on the integrity of the electoral process
