McAliney, 2019-09-24 Drawing from doctoral level research on how best to teach business education to college students Discourses on Business Education at the College Level illustrates new and proven ideas for engaging students Sixteen authors from New York University's Steinhardt School of Culture Education and Human Development

describe their experiences in upgrading and expanding the quality of the business education experience Business school instructors can use this edited collection to draw inspiration and learn specific techniques to bring their courses to the cutting edge of curriculum Topics range from teaching accounting financial literacy marketing and teamwork to gamification improving international student and intern experience not for credit education and virtual workplace learning The Tao of Computing, Second Edition Henry M. Walker, 2012-07-06 Describing both the practical details of interest to students and the high level concepts and abstractions highlighted by faculty The Tao of Computing Second Edition presents a comprehensive introduction to computers and computer technology This edition updates its popular predecessor with new research exercises and expanded discussion questions It uses a question and answer format to provide thoughtful answers to the many practical questions that students have about computing Among the questions answered the book explains What capabilities computers have in helping people solve problems and what limitations need to be considered Why machines act the way they do What is involved in getting computers to interact with networks The book offers a down to earth overview of fundamental computer fluency topics from the basics of how a computer is organized and an overview of operating systems to a description of how the Internet works The second edition describes new technological advances including social media applications and RSS feeds 7th International Conference on Education, Network and Information Technology Jingsha He, Ljiljana Trajković, 2025-07-01 This book presents the proceedings of the 7th International Conference on Education Network and Information Technology ICENIT2024 which took place in Dalian China on August 16 18 2024 The conference provides a platform for relevant scholars and researchers to discuss the impact of network and information technology on education improve the research and application level of domestic education and promote academic exchanges in related fields as well Topics include web classroom applications technology enhanced learning computer distance education AI in education digital libraries information system applications and more The conference is relevant to researchers professionals practitioners and students in education and IT if supportLists Presents the proceedings of the 7th International Conference on Education Network and Information Technology ICENIT2024 if supportLists Provides a platform to discuss the impact of network and information technology on education if supportLists Relevant to researchers professionals practitioners and students in education and IT *Handbook of Research on Literacy in Technology at the K-12 Level* Tan Wee Hin, Leo, Subramaniam, R., 2005-12-31 This book focuses on issues in literacy and technology at the K 12 level in a holistic manner so that the needs of teachers and researchers can be addressed through the use of state of the art perspectives Provided by publisher **Content Reading and Literacy** Donna E. Alvermann, Stephen F. Phelps, 2005 The Fourth Edition Builds on Past Strengths and Adds New Ones Student Centered Culturally Diverse Students Evidence Based Standards Written by renowned authors Donna Alvermann and Steven Phelps the Fourth Edition includes more emphasis and information on addressing the literacy needs of English language learners and culturally diverse students a new focus on evidence based

practices and standards and key information on newer frameworks for reading and writing instruction such as the sociocultural New Literacies Framework that equips students to teach content area literacy from a student centered approach What Continues to Make This Book a Best Seller Increased discussion of English language learners New evidence based research icons highlighting current research New standards icons from various subject areas help pre service teachers make the connection on how content area literacy instruction helps them meet the standards in their disciplines New writing icons throughout the chapters point to writing examples Thoroughly revised Chapter 7 Reading to Learn New information for all of the content areas in every chapter is represented in the examples lessons vignettes and scenarios making it easier for students enrolled from different discipline areas to locate content specific relevant examples Ringing Endorsements for Content Area Reading and Literacy Fourth Edition Chapter 14 Teaching for Diversity This is an excellent chapter that certification students and other graduate students can use to understand more about the types of diversity categories that are present in instructional settings This textbook is excellent for students Lavernia F Hutchison University of Houston Central Campus There are many strengths in this text I particularly like the way it is laid out I believe that helping the students to see the importance of content literacy from the very beginning is extremely important Immediately following this topic the students then move directly into diversity which includes the understanding the meaning of language and culture Both of these topics form the basis for the rest of the course Overall I believe that this book is an excellent text for teaching in the Content Area Randy M Wood Baylor University The strengths of this text include the authors in depth knowledge of the field of content area reading Their chapter on assessing textbooks is invaluable for secondary teachers who don't understand the difficulty of some textbooks and the problems these texts can cause students The chapter on multiculturalism and the ESL learner is a strength The chapter on vocabulary is outstanding Patricia J Pollifrone Gannon University Please visit the book specific website at <http://www.ablongman.com/alvermann4e> to learn more

*Organizational Communication* Michael J. Papa, Tom D. Daniels, Barry K. Spiker, 2008 Communication in organizations has changed drastically since the release of the first edition of this bestselling textbook This fully revised and updated edition delves into state of the art studies providing fresh insights into the challenges that organizations face today Yet this foundational resource remains a cornerstone in the examination of classic research and theory in organization communication

*Opening Up Education* Toru Iiyoshi, M.S. Vijay Kumar, 2010-09-24 Experts discuss the potential for open education tools resources and knowledge to transform the economics and ecology of education Given the abundance of open education initiatives that aim to make educational assets freely available online the time seems ripe to explore the potential of open education to transform the economics and ecology of education Despite the diversity of tools and resources already available from well packaged course materials to simple games for students self learners faculty and educational institutions we have yet to take full advantage of shared knowledge about how these are being used what local innovations are emerging and how to learn from and build on the experiences of

others Opening Up Education argues that we must develop not only the technical capability but also the intellectual capacity for transforming tacit pedagogical knowledge into commonly usable and visible knowledge by providing incentives for faculty to use and contribute to open education goods and by looking beyond institutional boundaries to connect a variety of settings and open source entrepreneurs These essays by leaders in open education describe successes challenges and opportunities they have found in a range of open education initiatives They approach from both macro and micro perspectives the central question of how open education tools resources and knowledge can improve the quality of education The contributors from leading foundations academic institutions associations and projects discuss the strategic underpinnings of their efforts first in terms of technology then content and finally knowledge They also address the impact of their projects and how close they come to achieving a vision of sustainable transformative educational opportunities that amounts to much more than pervasive technology Through the support of the Carnegie Foundation for the Advancement of Teaching an electronic version of this book is openly available under a Creative Commons license at The MIT Press Web site <http://mitpress.mit.edu>
