profound overlapping crises The landscape of politics and entitlement is being rapidly remade As movements against colonial legacies and state violence coincide with the rise of authoritarian regimes it is the lens of racism and the politics of race that offers the sharpest focus In *Empire's Endgame* eight leading scholars make a powerful intervention in debates around racial capitalism and political crisis in Britain While the hostile environment policy and Brexit referendum have thrown the centrality of race into sharp relief discussions of racism have too often focused on individual behaviours Foregrounding instead the wider political and economic context the authors trace the ways in which the legacies of empire have been reshaped by global capitalism the digital environment and the instability of the nation state Engaging with movements such as Black Lives Matter and Rhodes Must Fall *Empire's Endgame* offers both an original perspective on race media the state and criminalisation and a political vision that includes rather than expels in the face of crisis

Violence at the Urban Margins Javier Auyero, Philippe I. Bourgois, Nancy Scheper-Hughes, 2015 In the Americas debates around issues of citizen's public safety from debates that erupt after highly publicized events such as the shootings of Jordan Davis and Trayvon Martin to those that recurrently dominate the airwaves in Latin America are dominated by members of the middle and upper middle classes However a cursory count of the victims of urban violence in the Americas reveals that the people suffering the most from violence live and die at the lowest of the socio-symbolic order at the margins of urban societies The inhabitants of the urban margins are hardly ever heard in discussions about public safety They live in danger but the discourse about violence and risk belongs to is manufactured and manipulated by others others who are prone to view violence at the urban margins as evidence of a cultural or racial defect rather than question violence's relationship to economic and political marginalization As a result the experience of interpersonal violence among the urban poor becomes something unspeakable and the everyday fear and trauma lived in relegated territories is constantly muted and denied This edited volume seeks to counteract this pernicious tendency by putting under the ethnographic microscope and making public the way in which violence is lived and acted upon in the urban peripheries It features cutting edge ethnographic research on the role of violence in the lives of the urban poor in South Central and North America and sheds light on the suffering that violence produces and perpetuates as well as the individual and collective responses that violence generates among those living at the urban margins of the Americas
