Studying Religion: An Introduction Through Cases Gary E. Kessler, 2007 **Fifty Key Thinkers on Religion** Gary Kessler, 2013-03
Fifty Key Thinkers on Religion is an accessible guide to the most important and widely studied theorists on religion of the last 300 years. Arranged chronologically, the book explores the lives, works, and ideas of key writers across a truly interdisciplinary range from sociologists to psychologists. Thinkers covered include Friedrich Nietzsche, James Frazer, Sigmund Freud, Emile Durkheim, Ludwig Wittgenstein, Mary Douglas, Talal Asad, Søren Kierkegaard. Providing an indispensable one-volume map of our understanding of religion in the West, the book is fully cross-referenced throughout and provides authoritative guides to important primary and secondary texts for students wishing to take their studies further.

Are you teaching religious studies in the best way possible? Do you inadvertently offer simplistic understandings of religion to undergraduate students only to then unpick them at advanced levels? This book presents case studies of teaching methods that integrate student learning, classroom experiences, and disciplinary critiques. It shows how critiques of the scholarship of religious studies, including but not limited to the World Religions paradigm, Christian normativity, Orientalism, colonialism, race, gender, sexuality, and class, can be effectively integrated into all courses, especially at an introductory level. Integrating advanced critiques from religious studies into actual pedagogical practices, this book offers ways for scholars to rethink their courses to be more reflective of the state of the field. This is essential reading for all scholars in religious studies. Exploring the Spirituality of the World Religions Duncan S. Ferguson, 2010-08-24
Introduction to the spiritual pathways of the major world religions, exploring the core beliefs, values, and practices of each tradition. **The Trinity and the Religions**, Loe Joo Tan, 2018-09-15
Will the followers of other religions who have not heard of the gospel be saved? Since the Second Vatican Council, the Catholic Church has been grappling with this question, culminating in a recent document, *Dominus Iesus*, in 2000. In the post-DI climate, the British theologian Gavin D. Costa has been described as a representative post-DI theologian of religions. And with good reason, since other theologians such as Jacques Dupuis, whose work along the lines of neo-Rahnerianism have been curtailed by DI, D. Costa's work has spanned the past three decades and is aimed at developing a theology that echoes developments within the Catholic Church's efforts to grapple with the existence of other religions. In doing so, he has appropriated the doctrine of the Trinity by reasoning it provides the very resources for interacting with Others and developed a form of Trinitarian inclusivism. Based on the work of

patristic theologians such as Lewis Ayres and Michel Barnes and their conception of a Pro Nicene theological matrix this book is an attempt to assess whether D Costa's utilization of trinitarian resources for contemporary concerns is faithful to the tradition The book concludes that while there is much to commend in D Costa's system there remain some features not fully consonant with classical Trinitarianism

The Ends of Philosophy of Religion T. Knepper, 2013-08-20 Knepper criticizes existing efforts in the philosophy of religion for being out of step with and therefore useless to the academic study of religion then forwards a new program for philosophy of religion that is in step with and therefore useful to the academic study of religion

Understanding New Religious Movements John A Saliba, 2004-09-08 Discussions of any religion can easily raise passions But arguments tend to become even more heated when the religion under discussion is characterized as new Divisions around the study of new religious movements NRMs or cults or nontraditional or alternative or emergent religions are so acute that there is even controversy over what to call them John Saliba strives to bring balance to these discussions by offering perspectives on new religions from different academic perspectives history psychology sociology law theology and counseling This approach provides rich descriptions of a broad range of movements while demonstrating how the differing aims of the disciplines can create much of the controversy around NRMs The new second edition has been updated and revised throughout and includes a new foreword by noted historian of religion J Gordon Melton For classes in religion or the social sciences or for interested individuals Understanding New Religious Movements offers the most objective introduction possible

Religion and Science Fiction James H. Thrall, 2024-05-17 Religion and Science Fiction An Introduction guides students into deeper understanding of how religion and science fiction engage often overlapping questions This textbook introduces key ideas of religious studies through critical consideration of print and visual media that fall within the general category of science fiction The goal throughout is to help students move beyond simply identifying points of interrelation between religious studies and forms of what is often called more broadly speculative fiction to considering how the studied texts open new ways of thinking about human and nonhuman experience taken to be religious With discussion questions lists of key terms extensive additional resources and suggestions for projects and essay questions this book is a foundational text for students and instructors of religion and science fiction

Reconfigurations of Philosophy of Religion Jim Kanaris, 2018-04-01 Explores the place and meaning of philosophy of religion in our current poststructuralist postsecular postcolonialist context This collection addresses as it exemplifies an identity crisis in contemporary philosophy of religion It represents a unique two way dialogue between philosophers of religion and scholars of religion and broaches issues pertaining to the philosophy of religion and the philosophical tradition on the one hand and religious studies theology and the modern academy on the other While each author manages the current challenges in philosophy of religion differently one can nonetheless discern a polyphony of interests surrounding a postcritical postsecular appreciation of religion In part 1 contributors ask how philosophy of religion can accommodate both the strengths and weaknesses of Western analytic and

continental traditions incorporate developments in ideology critique gender studies and Asian philosophies and negotiate the perceived stalemate in philosophy of religion Part 2 addresses these questions in terms of a philosophy of religion that is postcolonial in intention and multidisciplinary in orientation and features scholarship from the fields of both religion and theology An underlying theme is the importance of ushering philosophy of religion into a postphenomenological era of religious studies and theology This is a neglected dimension in many laudable discussions about philosophy of religion that this volume hopes to emend This gathering of important voices and the differences of approach and opinion that they represent invites provokes reflection self examination by philosophers of religion and further work Jeffrey Dudiak author of *The Intrigue of Ethics A Reading of the Idea of Discourse in the Thought of Emmanuel Levinas* *Buddhist World* Glen Valentine, 2018-01-16 Buddhism is a religion practiced by an estimated 495 million in the world as of the 2010s representing 9% to 10% of the world's total population China is the country with the largest population of Buddhists approximately 244 million or 18.2% of its total population They are mostly followers of Chinese schools of Mahayana making this the largest body of Buddhist traditions Mahayana also practiced in broader East Asia is followed by over half of world Buddhists The second largest body of Buddhist schools is Theravada mostly followed in Southeast Asia The third and smallest body of schools Vajrayana is followed mostly in Tibet the Himalayan region Mongolia and parts of Russia but has been disseminated throughout the world Buddhism was almost entirely unknown in western countries until the 19th century European diplomats and scholars who travelled and lived in Asia collected Buddhist texts to have them translated into English German and French Awareness of Buddhism arrived in the United States around the 1840s when the first Chinese immigrants settled in the western part of the country Still in general Buddhism remained poorly understood in the west until the 1960s when the first Buddhist teachers started arriving and quickly found thousands of followers However curious westerners without serious study tended to view Buddhism as more of a mystic movement rather than an encompassing spirituality involving meditation Buddhism gained more popularity across Western culture by the end of the 20th century when celebrities and other well known people like Steve Jobs Richard Gere or Phil Jackson openly talked about the positive influence Buddhism has had on their lives The author of this book has joined the debate and examines the issues bringing fresh insights on the subject In this book the author seeks to prove that the consciousness of the individual and individuality which at the empirical level involves the rise of private property family and the state finds its most sophisticated and rational expression in early Buddhism *Teaching African American Religions* Carolyn M. Jones, Theodore Louis Trost, 2005-07-14 The variety and complexity of its traditions make African American religion one of the most difficult topics in religious studies to teach to undergraduates The sheer scope of the material to be covered is daunting to instructors many of whom are not experts in African American religious traditions but are called upon to include material on African American religion in courses on American Religious History or the History of Christianity Also the unfamiliarity of the subject matter to the vast majority of

students makes it difficult to achieve any depth in the brief time allotted in the survey courses where it is usually first encountered. The essays in this volume will supply functional innovative ways to teach African American religious traditions in a variety of settings. **American Book Publishing Record**, 2005. The Relationship of Philosophy to Religion Today Paolo Diego Bubbio, Philip Andrew Quadrio, 2011-01-18. The Relationship of Philosophy to Religion Today is a collection of texts authored by philosophers with an interest in contemporary philosophy of religion its merits and its limitations. The collection has been stimulated by such questions as What ought philosophy of religion be and How ought philosophy relate to religion today. In pursuing such questions the editors have asked the contributors to offer their insights and reflections on issues that they see as important to contemporary philosophy of religion with the goal of producing a collection of texts offering the reader a variety of perspectives without privileging any particular philosophical religious or irreligious orientation. The book covers such themes as the relationship between religion and modernity faith in keeping with reason contemplation the merits and limitations of the atheism and the relationship between philosophy religion and politics.

Principles and Practicalities of Interfaith Relationships in Nigeria. Hyacinth Kalu, 2011-06-15. Given the amazing interest in interfaith relationships among the religions in Nigeria and the desire to proffer a better approach to these relationships this book proposes a dialogical approach as a solution to the religious conflicts and crises that have become the order of the day in Nigeria. In this approach no religion is left out. All ATR Islam and Christianity are treated as equal partners in seeking and offering solutions towards better relationships among religious followers and the Nigerian people. Interfaith relationships and activities involving all three religions in Nigeria ATR Islam and Christianity without excluding any is a powerful tool for promoting religious harmony peace and cooperation for the stability and advancement of our nation. This volume offers the guidelines and practical activities towards making dialogical relationships possible and fruitful among the followers of African Traditional Religion Muslims and Christians in Nigeria.
