Hope Unbroken A Romance Serial Part 1 Hope Unbroken Series:

Television Series as Literature Reto Winckler, Víctor Huertas-Martín, 2022-01-19 This book explores how television series can be understood as a form of literature bridging the gap between literary and television studies It goes beyond existing adaptation studies and narratological approaches to television series in both its scope and depth The respective chapters address literary works themes tropes techniques values genres and movements in relation to a broad variety of television series while drawing on the theoretical work of a host of scholars from Simone de Beauvoir and Yuri Lotman to Ted Nannicelli and Jason Mittell and on critical approaches ranging from narratology and semiotics to empirical sociology and phenomenology The book fosters new ways of understanding television series and literature and lays the groundwork for future scholarship in a number of fields By questioning the alleged divide between television series and works of literature it contributes not only to a better understanding of television series and literary texts themselves but also to the development of interdisciplinary scholarship in the humanities
