

# Hospice Face-to-Face Encounter Final Rule Published

## Summary at a Glance:

Late Tuesday afternoon, November 2nd, the Federal Register posted the final rule for the Hospice Face-to-Face Encounter as part of the Final Rule entitled: Medicare Program; Home Health Prospective Payment System Rule Update for Calendar Year 2011; Changes in Certification Requirements for Home Health Agencies and Hospices. Highlights in the final rule are as follows:

- A hospice physician, hospice Nurse Practitioner, or incident/fellow physician rotating through the hospice may perform the face-to-face encounter.
- CMS clarified that the face-to-face encounter is based on benefit periods and not on actual days of care.
- Visit Timeliness is now 30 days. CMS has expanded the time frame for face-to-face encounters to 30 days prior to the start of the 180-day recertification, and each subsequent recertification.
- CMS has changed the language to 418.22 (CJ4) from "must visit" to "have a face-to-face encounter" in order to make clear that the hospice has flexibility for the practitioner to see the patient – either at the patient's home or by the patient coming to see the physician or NP.

Clarification that the face-to-face encounter is NOT billable. The billing regulations for hospices do not allow for physician reimbursement for administrative activities of physicians.

## The Requirement:

The Affordable Care Act amends section 1814(a)(17) of the Social Security Act to require that on and after January 1, 2011, a hospice physician or nurse practitioner (NP) must have a face-to-face encounter with every hospice patient to determine the continued eligibility of that patient prior to the 180-day recertification, and prior to each subsequent recertification. Furthermore, the Affordable Care Act requires that the hospice physician or NP attest that such a visit took place, in accordance with procedures established by the Secretary of the HHS.

Specific provisions in the final rule:

### 1. Who Can Perform the Encounter?

#### Physicians:

- **Certifying terminal illness:** By statute, only a physician (not a NP) may certify a patient's terminal illness.
- **Definition of hospice physician:** A "hospice physician" is a physician either employed by or working under arrangements with a hospice (i.e., contractors).
- **Increased accountability:** By limiting "hospice physician" to those physicians who are employed by or working under contract with a hospice, CMS also increases accountability, as the hospice is in control of its employees and contracted physicians.

**The New Face of Evaluation and Management** Kellie Hall, 2025-06-30 Physicians want to care for patients not spend their time documenting in an electronic medical record Physicians are always complaining about the amount of time they spend documenting patient care in support of medical billing through an evaluation and management coding system E M New guidelines were created to lessen the time a physician provider spends on documentation as many of the mandatory elements are no longer a requirement for calculating a code level Previously an E M evaluation and management note required documentation of history exam and medical decision making with required

elements in each component to support a level for payment. If an element was missing the level of service was not supported therefore the code was lowered resulting in a lower reimbursement for the physician provider. The new guidelines eliminated the requirement of History and Exam as part of the calculation of a code level. Yes an appropriate history and exam are required this supports good patient care but when it comes to reimbursement they are no longer part of the picture. The overall system is not difficult if time is taken to understand the elements and how they are applied in the documentation. Documentation is a word game always has been the authors focus is to show what words to use to lessen the time but still convey the complexity of the patient's condition and how the physician provider determines a treatment plan which includes the risk to the patient to satisfy the Coding guidelines initiated by Medicare and American Medical Association. This book evaluates the new guidelines and brings them into perspective so physicians providers coders can easily understand how to document and calculate the level of service for reimbursement. This is not a cumbersome book or complicated but straight to the point. The main goal of the book is to educate physicians nurses and coders on what documentation is really required and what has just become habit over the last 30 years.

**Health Care Finance and the Mechanics of Insurance and Reimbursement** Michael K. Harrington, 2023-11-06 Health Care Finance and the Mechanics of Insurance and Reimbursement combines financial principles unique to the health care setting with the methods and process for reimbursement including coding reimbursement strategies compliance financial reporting case mix index and external auditing. It explains the revenue cycle correlating it with regular management functions and covers reimbursement from the initial point of care through claim submission and reconciliation. Updated throughout the Third Edition offers expanded material on financial statements new and expanded Skilled Nursing Facility examples and enhanced sections on PDPM Practice Management for Primary Care and other Specialties Clearinghouse Processes Predictive Modeling data mining and more.

Code of Federal Regulations, 2000 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries.

Dimensions of Long-Term Care Management: An Introduction, Third Edition Mary Helen McSweeney-Feld, PhD, LNHA, FACHCA, Carol Molinari, PhD, 2023-04-10 Instructor Resources Test bank PowerPoint slides answers to end of chapter questions and case studies sample course syllabi and a transition guide to the new edition. Long term care continues to evolve and change especially in response to the global COVID 19 pandemic.
