MacWillson, 1992-06-18 Examines the problems governments face or are likely to face in handling a hostage situation. The book seeks to address the specialized subject of crisis management when applied to hostage siege incidents and concentrates in particular on the techniques used in siege negotiations *United States Hostage Case in World Court* United States,1979 **Postcolonial Translocations** Marga Munkelt, Markus Schmitz, Mark Stein, Silke Stroh, 2013 The sites from which postcolonial cultural articulations develop and the sites at which they are received have undergone profound transformations within the last decades This book traces the accelerating emergence of cultural crossovers and overlaps in a global perspective and through a variety of disciplinary approaches It starts from the premise that after the spatial turn human action and cultural representations can no longer be grasped as firmly located in or clearly demarcated by territorial entities. The collection of essays investigates postcolonial articulations of various genres and media in their spatiality and locatedness while envisaging acts of location as dynamic cultural processes It explores the ways in which critical spatial thinking can be made Productive Testing the uses and limitations of translocation as an open exploratory model for a critically spatialized postcolonial studies it covers a wide range of cultural expressions from the anglophone world and beyond literature film TV photography and other forms of visual art philosophy historical memory and tourism The extensive introductory chapter charts various facets of spatial thinking

from a variety of disciplines and critically discusses their implications for postcolonial studies The Contributors essays range from theoretical interventions into the critical routines of postcolonial criticism to case studies of specific cultural texts objects and events reflecting temporal and spatial material and intellectual physical and spiritual mobility What emerges is a fascinating survey of the multiple directions postcolonial translocations can take in the future This book is aimed at students and scholars of postcolonial literary and cultural studies diaspora studies migration studies transnational studies globalisation studies critical space studies urban studies film studies media studies art history philosophy history and anthropology Contributors Diana Brydon Lars Eckstein Paloma Fresno Calleja Lucia Kr mer Gesa Mackenthun Thomas Martinek Sandra Meyer Therese M Meyer Marga Munkelt Lynda Ng Claudia Perner Katharina Rennhak Gundo Rial y Costas Markus Schmitz Mark Stein Silke Stroh Kathy Ann Tan Petra Tournay Theodotou Daria Tunca Jessica Voges Roland Walter Artifactual Elizabeth Anne Davis, 2023-07-14 In Artifactual Elizabeth Anne Davis explores how Cypriot Dirk Wiemann researchers scientists activists and artists process and reckon with civil and state violence that led to the enduring division of the island using forensic and documentary materials to retell and recontextualize conflicts between and within the Greek Cypriot and Turkish Cypriot communities Davis follows forensic archaeologists and anthropologists who attempt to locate identify and return to relatives the remains of Cypriots killed in those conflicts She turns to filmmakers who use archival photographs and footage to come to terms with political violence and its legacies In both forensic science and documentary filmmaking the dynamics of secrecy and revelation shape how material remains such as bones and archival images are given meaning Throughout Davis demonstrates how Cypriots navigate the tension between an ethics of knowledge which valorizes truth as a prerequisite for recovery and reconciliation and the politics of knowledge which renders evidence as irremediably partial and perpetually falsifiable Hostages in the Middle Ages Adam J. Kosto, 2012-06-21 In medieval Europe hostages were given not taken They were a means of guarantee used to secure transactions ranging from treaties to wartime commitments to financial transactions In principle the force of the guarantee lay in the threat to the life of the hostage if the agreement were broken but while violation of agreements was common execution of hostages was a rarity Medieval hostages are thus best understood not as simple pledges but as a political institution characteristic of the medieval millennium embedded in its changing historical contexts In the Early Middle Ages hostageship was principally seen in warfare and diplomacy operating within structures of kinship and practices of alliance characteristic of elite political society From the eleventh century hostageship diversified despite the spread of a legal and financial culture that would seem to have made it superfluous Hostages in the Middle Ages traces the development of this institution from Late Antiquity through the period of the Hundred Years War across Europe and the Mediterranean World It explores the logic of agreements the identity of hostages and the conditions of their confinement while shedding light on a wide range of subjects from sieges and treaties to captivity and ransom to the Peace of God and the Crusades to the rise of towns and representation to political communication

and shifting gender dynamics The book closes by examining the reasons for the decline of hostageship in the Early Modern era and the rise the modern variety of hostageship that was addressed by the Nuremberg tribunals and the United Nations in the twentieth century The History of the Norman Conquest of England, Its Causes and Its Results Edward Augustus The History of the Norman Conquest of England Edward A.
