Academic Language Mastery: Grammar and Syntax in Context

David E. Freeman, Yvonne S. Freeman, Ivannia Soto, 2016-07-22 By now it's a given if we're to help our ELLs and SELs access the rigorous demands of today's content standards we must cultivate the code that drives school success: academic language. Look no further for assistance than this much anticipated series from Ivannia Soto in which she invites field authorities Jeff Zwiers, David and Yvonne Freeman, Margarita Calderon and Noma LeMoine to share every teacher's need to know strategies on the four essential components of academic language. The subject of this volume is grammar and syntax. Here David and Yvonne Freeman shatter the myth that academic language is all about vocabulary, revealing how grammar and syntax inform our students' grasp of challenging text. With this book as your roadmap you'll learn how to teach grammar in the context of students' speech and writing. Use strategies such as sentence frames, passives, combining simple sentences into more complex sentences and nominalization to create more complex noun phrases. Assess academic language development through a four-step process. Look inside and discover the tools you need to help students master more sophisticated and complex grammatical and syntactical structures right away. Better yet, read all four volumes in the series and put in place a start to finish instructional plan for closing the achievement gap.
