

Headlight Dimmer Switch

To obtain high or low beam headlights, push the foot dimmer switch located on the floor below the parking brake. A blue light in the upper center of the speedometer cluster appears when you are driving on high beam.

For better night driving vision and for compliance with regulations of certain states, it is recommended that the headlights be checked periodically for proper aim and adjusted if necessary. Whenever the headlamp is replaced the aim should be checked. Adjustment can be made without removing the headlamp rim.
