Williams, 2004 The events of September 11 2001 has changed the world forever But are we really meant to believe that the world s largest and most powerful government and military bodies on the planet was taken aback by them And is that same governing body not accountable to provide a factual and logical explanation of what happened And why has the American tax paying citizen not asked If 350 billion a year for a national security infrastructure can not protect its own headquarters the Pentagon will more funding really protect the nation The global community are not being told the truth about the events that occurred that day This book opens and explores using official protocols what was supposed to happen that day and what was perhaps allowed to happen Piece by piece is put together that creates a much different picture than given to us from the American Government and media **Skyfaring** Mark Vanhoenacker, 2015-06-02 A poetic and nuanced exploration of the human experience of flight that reminds us of the full imaginative weight of our most ordinary journeys and reawakens our capacity to be amazed The twenty first century has relegated airplane flight a once remarkable feat of human ingenuity to the realm of the mundane Mark Vanhoenacker a 747 pilot who left academia and a career in the business world to pursue his childhood dream of flight asks us to reimagine what we both as pilots and as passengers are actually doing when we enter the world between departure and discovery In a seamless fusion of history politics geography meteorology ecology family and physics Vanhoenacker vaults across geographical and cultural boundaries above mountains oceans and deserts through snow wind and rain renewing a simultaneously humbling and almost superhuman activity that affords us unparalleled perspectives on the planet we inhabit
