JEmbedAll manual Dan-Marius Sabau,2017-01-29 JEmbedAll is a Joomla component and plugin the you can purchase from <http://www.goldengravel.eu>

something you can add to your website and start embedding videos images and more other features to your site The role of the component is mainly to configure the data you are embedding using the plugin but it also offer support for downloading files and generating ebooks The package it s easy to configure and to work with Some features have to be configured there is a configuration section just for that in the backend in order to be embedded and used properly in the frontend other features are integrated and you just used them as they are Even so you may set some details right using the CSS attached to the predefined or user defined strings used for embed code on your Joomla site Purchase it and download the package for your Joomla version then install it in order to have a powerful tool to embed videos from YouTube Google Vimeo Metacafe Veoh Dailymotion RedTube and others documents images and Google forms used for quiz You can also embed Facebook pages plugins images and videos Community Builder advanced searches Prezi and Scribd documents Starting with the 1.3 version you can configure and embed any number of conditional forms and you can configure the Open Graph protocol and Twitter cards data with all the data and thumbnails ready for Facebook and all the sites The online manual and the generated ebook based on it are very detailed about each feature but you can always ask questions when you don t understand something or they are not clear enough The only condition to embed the videos and files is that they have to be online upload your videos on YouTube or Vimeo for example and upload your files the documents can be Portable Document Format PDFs Word docs Power Point SpreadSheets and any other documents recognized by Google Docs on your server or Google servers and embed them into your sites The path of the document does not have to be some on docs.google.com but that works fine it works as well they are on any other website but you have to enter the full path of the file You can define configure and embed any number of jQuery images sliders into your site You can define and use any number of Popups on your Joomla site You can embed Google maps and direction into your site You can define and configure file packages they can contain any number of files the visitors can download for free or for money Paypal payment included You can define configure and embed Community Builder advanced searches this component works with any CB version Since JEmbedAll version 1.3 the search results can open in the same window in a different window or in a modal window Beyond that you can give every user several powerful tools they can save the search forms and search results they can embed that saved search results as users lists they can use CB privacy a tool that restricts access to some fields or even the users on searches You can embed Facebook pages posts videos and images depending on the Facebook privacy in many cases all this have to be public for everyone to see but you can also embed some plugins Facebook activity comments facepile likebox and recommendations Starting with the 1.5 version you can generate and download e books based on your website content The Paypal payment was modified and extended you can create shopping carts for files you want sell and the generated e books

Joomla! 1.5 Eric Tiggeler, 2010-02-18 Build and maintain impressive user friendly web sites the fast and easy way with Joomla 1.5 **Joomla!**

Programming Mark Dexter, Louis Landry, 2012-03-30 When you master Joomla programming you can customize websites in

ways that simply aren't possible by tweaking parameters or installing someone else's extensions. Now there's an authoritative soup-to-nuts programming guide for every Joomla user from beginners with no Joomla development experience to long-time coders seeking a quick start with Joomla's powerful new versions 1.6.1.7 and 2.5. Joomla™ Programming presents proven best practices for getting the job done right. Written by Mark Dexter and Joomla design architect Louis Landry, who wrote much of the new Joomla framework, the text is packed with detailed examples and sample code in depth reference style explanations available nowhere else and fascinating sidebars revealing why Joomla works the way it does. Both a tutorial and reference, this title brings together step-by-step instructions for everything from simple tasks such as template overrides to cutting-edge techniques involving components, MVC and the Joomla framework. You'll learn how to view Joomla from a programmer's perspective, extend Joomla with layout overrides, plugins and modules. Take full advantage of Joomla's improved new MVC implementation. Build front-end and back-end components from start to finish. Secure your websites with Joomla's powerful flexible new Access Control Lists. Work with databases and use the new JDatabaseQuery to write complex queries. Program Joomla with JavaScript via the lightweight MooTools framework. Develop custom category structures for your own websites and extensions. Enable one-click updates for your own custom extensions. Use the Joomla platform as an application framework. All example code, updates and more information on Joomla programming are available at the companion website joomlaprogrammingbook.com.
