Western Corporations and Covert Operations in the early Cold War Margaret Murányi Manchester, 2024-05-28 This book examines the Vogeler Sanders espionage case that ruptured ties between the US and UK and Hungary in 1949 and analyses this as an example of Western covert operations in the early Cold War The work focuses on the 1949 case of ITT in Hungary where two of its executives the American Robert A Vogeler and the Briton Edgar Sanders were arrested by the secret police tortured forced to confess put on a public show trial and found guilty of espionage This happened at a time that the US and the UK were cooperating in numerous operations to undermine the credibility of the communist regime and to encourage local resistance by all means short of war Using the case as a lens to examine the dynamics of the early Cold War the book integrates business history diplomatic history and intelligence history and thereby traces the impact of the case on Anglo Hungarian American Hungarian and Anglo American relations during the critical period of 1949 1956 Vogeler s case had a strong impact on the growing criticism of the Truman Administration s containment policies and contributed to the demand for a more activist policy of liberation of captive peoples His experiences also rallied the business community especially trade associations such as the National Foreign Trade Council the US Chamber of Commerce and the National Association of Manufacturers to support the anti communist crusade both abroad and at home Vogeler s wife also waged a personal campaign to secure her husband s release and exemplifies the activism of conservative and Catholic women who waged their own anti communist crusade The book thus tells the rest of the story often omitted in traditional works This book will be of much interest to students of Cold War history intelligence studies and European political history Vietnam, January 1969-July 1970 United States. Congress. House. Committee on Appropriations,1964 **Comrades at Odds** Andrew Jon Rotter,2000 Comrades at Odds explores the complicated Cold War relationship between the United States and the newly independent India of Jawaharlal Nehru from a unique perspective that of culture broadly defined In a departure from the usual way of doing diplomatic history Andrew J Rotter chose culture as his jumping off point because he says Like the rest of us policymakers and diplomats do not shed their values biases and assumptions at their office doors They are creatures of culture and their attitudes cannot help but shape the policy they make To define those attitudes Rotter consults not only government documents and the memoirs of those involved in the events of the day but also literature art and mass media An advertisement a photograph a cartoon a film and a short story he finds tell us in their own ways about relations between nations as surely as a State Department memorandum does While expanding knowledge about the creation and implementation of democracy Rotter carries his analysis across the categories of race class gender religion and culturally infused practices of governance strategy and economics Americans saw Indians as superstitious unclean treacherous lazy and prevaricating Indians regarded Americans as arrogant materialistic uncouth profane and violent Yet in spite of these stereotypes Rotter notes the mutual recognition of profound similarities between the two groups they were indeed comrades at odds **Hearings** United States. Congress. House,1964 *Departments of Treasury and Post Office and Executive Office Appropriations* United States. Congress. House. Committee on Appropriations. Subcommittee on Departments of Treasury, and Post Office, and Executive Office Appropriations,1965 **Fulfilling the Sacred Trust** Mary Ann Heiss,2020-12-15 Fulfilling the Sacred Trust explores the implementation of international accountability for dependent territories under the United Nations during the early Cold War era Although the Western nations that drafted the UN Charter saw the organization as a means of maintaining the international status quo they controlled newly independent nations saw the UN as an instrument of decolonization and an agent of change disrupting global political norms Mary Ann Heiss documents the unprecedented process through which these new nations came to wrest control of the United Nations from the World War II victors that founded it allowing the UN to become a vehicle for global reform Heiss examines the consequences of these early changes on the global political landscape in the midst of heightened international tensions playing out in Europe the developing world and the UN General Assembly She puts this anti colonial advocacy for accountability into perspective by making connections between the campaign for international accountability in the United Nations and other postwar international reform efforts such as the anti apartheid movement Pan Africanism the Non Aligned Movement and the drive for global human rights Chronicling the combative history of this campaign Fulfilling the Sacred Trust details the global impact of the larger UN reformist effort Heiss demonstrates the unintended impact of decolonization on the United Nations and its agenda as well as the shift in global influence from the developed to the developing world *Auto Motor Journal* ,1920 [Freedom Incorporated](#) Colleen Woods,2020-05-15 Freedom Incorporated demonstrates how anticommunist political projects were critical to the United

States expanding imperial power in the age of decolonization and how anticommunism was essential to the growing global economy of imperial violence in the Cold War era In this broad historical account Colleen Woods demonstrates how in the mid twentieth century Philippines US policymakers and Filipino elites promoted the islands as a model colony In the wake of World War II as the decolonization movement strengthened those same political actors pivoted and after Philippine independence in 1946 lauded the archipelago as a successful postcolonial democracy Officials at Malaca ang Palace and the White House touted the 1946 signing of the liberating Treaty of Manila as a testament to the US commitment to the liberation of colonized people and celebrated it under the moniker of Philippine American Friendship Day Despite elite propaganda from the early 1930s to late 1950s radical movements in the Philippines highlighted US hegemony over the new Republic of the Philippines and in so doing threatened American efforts to separate the US from sordid histories of empire imperialism and the colonial racial order Woods finds that in order to justify US intervention in an ostensibly independent Philippine nation anticommunist Filipinos and their American allies transformed local political struggles in the Philippines into sites of resistance against global communist revolution By linking political struggles over local resources like the Hukbalahap Rebellion in central Luzon to a war against communism American and Filipino anticommunists legitimized the use of violence as a means to capture and contain alternative forms of political economic and social organization Placing the post World War II history of anticommunism in the Philippines within a larger imperial framework in *Freedom Incorporated* Woods illustrates how American and Filipino intelligence agents military officials paramilitaries state bureaucrats academics and entrepreneurs mobilized anticommunist politics to contain challenges to elite rule in the Philippines *Treasury-Post Office Departments and Executive Office Appropriations for 1965* United States.
