gas station and care for her family with a third newborn But learning to milk in addition to caring for their three children cooking planting crops and harvesting them leaves her no choice but to work as she had never envisioned In Germany she had been a Kindergarten and Elementary school teacher Her husband tells her she has no alternative other than to continue to work the farm with him The depression deprives them of any surplus savings and the devastating barn fires end their dairy operation The work of last resort is to turn to the woods which Friederich does to cut firewood for income and logs with which to saw lumber and rebuild his barns His proclivity for sex however continues to know no bounds Volume III The Struggle to Survive The Struggle to Survive is the final novel of the trilogy of this immigrant family Emilie and Friederich have survived the transition from Germany to the United States They have moved from an urban environment to a rural one They have fallen to the lowest level of income In spite of all of these difficulties they survived to rebuild their barns resurrect their dairy expand
