How to Find Debt Free Stocks , BBC licence fee settlement and annual report Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2011-05-19 The Culture Media and Sport Committee says that the main outcomes of the BBC Trust s strategic review do not move the BBC on to the extent required by current circumstances and that the incoming Chairman will have much to get grips with The new licence fee agreement was reached unexpectedly in October 2010 between the Department for Culture Media and Sport and the BBC but without any time for wider consultation with viewers or Parliament The Committee believes the agreement reached is a reasonable one but the process undermined confidence in both the Government s and the BBC s commitment to transparency

and accountability On the partnership between BBC and S4C it is unclear how S4C can retain its independence under the new arrangements It is extraordinary that the Government and the BBC should agree such wide ranging changes without consultation or giving S4C any notice or say at all The Committee is particularly concerned that National Audit Office still does not have the promised access to conduct independent assessments of the BBC's value for money The Committee is also disappointed that banded information on talent salaries is still not in the public domain The BBC opened itself to predictable ridicule with the decision to hire a migration manager who had to commute from the United States to manage the transition to the new Salford site The report concludes that big questions remain over how radically the BBC needs to reconfigure both content and delivery in the years ahead

Disruption in Financial Reporting Krish Bhaskar, John Flower, 2021-01-21 Since the global financial crisis of 2007 8 new laws and regulations have been introduced with the aim of improving the transparency in financial reporting Despite the dramatically increased flow of information to shareholders and the public this information flow has not always been meaningful or useful Often it seems that it is not possible to see the wood for the trees Financial scandals continue as Wirecard NMC Health Patisserie Valerie going back to Carillion and many more demonstrate Financial and corporate reporting have never been so fraught with difficulties as companies fail to give guidance about the future in an increasingly uncertain world aided and abetted by the COVID 19 pandemic This concise book argues that the changes have simply masked an increase in the use of corporate PR impression management bullet points glossy images and other simulacra which allow poor performance to be masked by misleading information presented in glib boilerplate texts images and tables The tone of the narrative sections in annual reports is often misleading Drawing on extensive research and interviews with insiders and experts this book charts what has gone wrong with financial reporting and offers a range of solutions to improve information to both investors and the public This provides a framework for a new era of forward looking corporate reporting and guidance based on often conflicting multiple corporate goals The book also examines and contrasts the latest thinking by the regulatory authorities Providing a compelling exploration of the industry's failings and present difficulties and the impact of future disruption this timely thought provoking book will be of great interest to students researchers and professionals as well as policy makers in accounting financial reporting corporate reporting financial statement analysis and governance
