Italian Medieval Recipe:

The Medieval Kitchen Odile Redon, Françoise Sabban, Silvano Serventi, 1998 The Medieval Kitchen is a delightful work in which historians Odile Redon, Françoise Sabban and Silvano Serventi rescue from dark obscurity the glorious cuisine of the Middle Ages. Medieval gastronomy turns out to have been superb: a wonderful range of flavor, aroma and color. Expertly reconstructed from fourteenth and fifteenth century sources and carefully adapted to suit the modern kitchen, these recipes present a veritable feast. The Medieval Kitchen vividly depicts the context and tradition of authentic medieval cookery. This book is a delight. It is not often that one has the privilege of working from a text this detailed and easy to use. It is living history, able to be practiced by novice and master alike. Practical history which can be carried out in our own homes by those of us living in modern times. Wanda Oram Miles, The Medieval Review. The Medieval Kitchen, like other classic cookbooks, makes compulsive reading as well as providing a practical collection of recipes. Heather O'Donoghue, Times Literary Supplement. *Kitchens, Cooking, and Eating in Medieval Italy* Katherine A. McIver, 2017-10-16. The modern twenty-first century kitchen has an array of time-saving equipment for preparing a meal: a state-of-the-art stove and refrigerator, a microwave oven, a food processor, a blender, and a variety of top-notch pots, pans, and utensils. We take so much for granted as we prepare the modern meal, not just in terms of equipment but also the ingredients, without needing to worry about availability or seasonality. We cook with gas or electricity at the turn of the switch; we have instant heat. But it wasn't always so. Just step back a few centuries to say the 1300s, and we'd find quite a different kitchen, if there was one at all. We might only have a fireplace in the main living space of a small cottage. If we were lucky enough to have a kitchen, the majority of the cooking would be done over an open hearth: we'd build a fire of wood or coal and move a cauldron over the fire to prepare a stew or soup. A drink might be heated or kept warm in a long-handled saucepan set on its own trivet beside the fire. Food could be fried in a pan, grilled on a gridiron, or turned on a spit. We might put together a small improvised oven for baking. Regulating the heat of the open flame was a demanding task. Cooking on an open hearth was an all-embracing way of life, and most upscale kitchens had more than one fireplace with chimneys for ventilation. One fireplace was kept burning at a low, steady heat at all times for simmering or boiling water, and the others used for grilling on a spit over glowing radiant embers. This is quite a different situation than in our modern era, unless we were out camping and cooking over an open fire. In this book, Katherine McIver explores the medieval kitchen from its location and layout, like Francesco Datini of Prato, two kitchens, to its equipment: the hearth, the fuels, vessels and implements, and how they were used, to who did the cooking, man or woman, and who helped. We'll look at the variety of ingredients: spices, herbs, meats, fruits, vegetables, food preservation and production: salted fish, cured meats, cheese making, and look through recipes, cookbooks, and gastronomic texts to complete the picture of cooking in the medieval kitchen. Along the way, she looks at illustrations like the miniatures from the Tacuinum Sanitatis, a medieval health handbook, as well as paintings and engravings to give us an idea of the workings of a medieval kitchen.

including hearth cooking the equipment used how cheese was made harvesting ingredients among other things She explores medieval cookbooks such works as Anonimo Veneziano Libro per cuoco fourteenth century Anonimo Toscano Libro della cucina fourteenth century Anonimo Napoletano end of thirteenth early fourteenth century Liber de coquina Anonimo Medidonale Due libri di cucina fourteenth century Magninus Mediolanensis Maino de Maineri Opusculum de saporibus fourteenth century Johannes Bockenheim Il registro di cucina fifteenth century Maestro Martino s Il Libro de arte coquinaria fifteenth century and Bartolomeo Sacchi called Platina s On Right Pleasure and Good Health 1470 This is the story of the medieval kitchen and its operation from the thirteenth century until the late fifteenth century
