Stages in the process

Five stages are suggested here as essential procedures.

Stage 1: Planning and preparation

There are a number of steps in stage 1.

Background reading

Before starting the project, teachers must read the *Information technology in a global society guide*, referring specifically to the "Internal assessment" section. These pages give essential information on the nature of the internal assessment.

In addition, the following documents provide detailed information that teachers are strongly advised to read.

- **MLAF forms:** Following each examination session, schools receive subject-specific **feedback** on their internal assessment from the moderator. For group 3 subjects including ITGS, these are called MLAF forms. An example of a blank feedback form is provided in the "Sample forms" section.
- **Subject reports:** At the end of each examination session, schools receive a subject report. The internal assessment section of this report provides teachers with an overall review of projects undertaken in all schools entered for the examination session and recommendations are made for improvement.
- **The online curriculum centre (OCC)** at <http://occ.ibd.org> is a website that provides an ITGS discussion forum where ITGS teachers exchange ideas on developing the project.
- **Checklists for teachers and students** that are included within this publication.
