

## Itron Meter Installation

This chapter provides the instructions to install the 500G ERT module on an Itron meter.

**Note** Itron meters are also known as Actaris, Schlumberger, or Sprague meters. For these instructions, all meters will be referred to as Itron meters.

### Removing the Meter Index

Begin the module installation by removing the index cover and index from the meter.

#### *To remove the index from the meter*

1. Remove the index cover screws and the index cover from the Itron meter. Examine the mounting screws. If they are 5/8-inch long and not corroded, keep them to re-attach the 500G ERT module assembly. If the screws are not the correct length or if the screws are corroded, discard them.

**Note** Use the removed index cover as a temporary storage container for the screws. Properly dispose all unused screws, old index covers, gaskets, tamper seals, and other leftover materials.
