Landlocked Islands: Two Alien Lives in Egypt Anna Cachia, Pierre Cachia, 2000-01-01 This is a highly unusual and beautifully written book It is the double memoir of a mother and son Anna and Pierre and the story takes us from Anna's childhood in Russia and subsequent arrival in Egypt in 1901 to Pierre's enrollment at the American University in Cairo in the late 1930s It is fascinating therefore not only as a personal account of an interesting group of people but also as a social document that portrays a segment of Egypt's society in the first forty years of the twentieth century As a personal story it is a rewarding insight into the early formation of a leading well known and respected Arabist His mother's account of her own early life and tragedies reveals a remarkable woman we would wish to have known As a social document it gives us a rare perhaps unique picture of the life of foreigners in Egypt who were not part of the elite privileged ruling class revealing much about the choices that were available to them in education career marriage and social mixing Landlocked Islands thus offers the social historian a study of some minorities in Egypt during the first half of the twentieth century it also opens up the whole question of expatriate life in Egypt But above all it is an entertaining and intriguing tale a book that one constantly finds oneself eager to pick up and read

Shakespeare and the Apocalypse R. M. Christofides, 2012-06-14 By connecting Shakespeare's language to the stunning artwork that depicted the end of the world, this study provides not only a new reading of Shakespeare but illustrates how apocalyptic art continues to influence popular culture today. Drawing on extant examples of medieval imagery, Roger Christofides uses poststructuralist and psychoanalytic accounts of how language works to shed new light on our understanding of Hamlet, Othello, Macbeth, and King Lear. He then links Shakespeare's dependence on his audience to appreciate the allusions made to the religious paintings to the present day. For instance, popular television series like *Battlestar Galactica*, seminal horror movies such as *An American Werewolf in London*.

and Carrie and recent novels like Cormac McCarthy's *The Road* all draw on imagery that can be traced directly back to the depictions of the Doom, an indication of the cultural power these vivid imaginings of the end of the world have in Shakespeare's day and now.

Midnight's Descendants John Keay, 2014-03-11 Dispersed across India, Pakistan, Nepal, Bangladesh and Sri Lanka, Midnight's Descendants, the generations born since the 1947 midnight hour partition of British India, are the world's fastest growing population. This vast region and its peoples wield an enormous influence over global economics and geopolitics, yet their impact is too often simplified by accounts that focus solely on one nation and ignore the intricate web of affiliations that shape relations among British India's successor states. Now in *Midnight's Descendants*, celebrated historian John Keay presents the first comprehensive history of this complex and interconnected region, delving deep into the events that have shaped its past and continue to guide its future. The 1947 partition was devastating to the larger of the newly created states, and it continues to haunt them to this day. Joined by their common origin and the fear of further partition, the five key nations of South Asia have progressed in tandem to a large degree. These countries have been forced to grapple with common challenges, from undeveloped economies and fractured societies to foreign interventions and the fraught legacy of imperialism, leaving them irrevocably intertwined. Combining authoritative historical analysis with vivid reportage, Keay masterfully charts South Asia's winding path toward modernization and democratization over the past sixty years. Along the way, he unravels the volatile India-Pakistan relationship, the rise of religious fundamentalism, the wars that raged in Kashmir and Sri Lanka, and the fortunes of millions of South Asian migrants dispersed throughout the world, creating a full and nuanced understanding of this dynamic region. Expansive and dramatic, *Midnight's Descendants* is a sweeping narrative of South Asia's recent history, from the aftermath of the 1947 partition to the region's present-day efforts to transcend its turbulent past and assume its rightful role in global politics.

The Practices of Literary Translation Jean Boase-Beier, Michael Holman, 2016-04-08 In their introduction to this collection of essays, the editors argue that constraints can be seen as a source of literary creativity, and given that translation is even more constrained than original literary production, it thus has the potential to be even more creative too. The ten essays that follow outline ways in which translators and translations are constrained by poetic form, personal histories, state control, public morality, and the non-availability of comparable target language subcodes, and how translator creativity may or may not overcome these constraints. Topics covered are Baudelaire's translation practices, bowdlerism in translations of Voltaire, Boccaccio, and Shakespeare, among others; Leyris's translations of Gerard Manley Hopkins; ideology in English-Arabic translation; the translation of censored Greek poet Rhea Galanaki; theatre translation; Nabokov and translation; gay translation; Morat's translation of Hamlet; and state control of translation production in Nazi Germany. The essays are mostly highly readable and often entertaining.

The 1980s: A Decade of Contemporary British Fiction Philip Tew, Emily Horton, Leigh Wilson, 2014-02-27 How did social, cultural, and political events in Britain during the 1980s shape contemporary British fiction? Setting the fiction squarely within the context of

Conservative politics and questions about culture and national identity this volume reveals how the decade associated with Thatcherism frames the work of Kazuo Ishiguro Martin Amis and Graham Swift of Scottish novelists and new diasporic writers How and why 1980s fiction is a response to particular psychological social and economic pressures is explored in detail Drawing on the rise of individualism and the birth of neo liberalism contributors reflect on the tense relations between 1980s politics and realism and between elegy and satire Noting the creation of a heritage industry during the decade the rise of the historical novel is also considered against broader cultural changes Viewed from the perspective of more recent theorisations of crisis following both 9 11 and the 21st century financial crash this study makes sense of why and how writers of the 1980s constructed fictions in response to this decade s own set of fundamental crises [Alien Rice](#) Ichiro
