[Gandhi's Truths in an Age of Fundamentalism and Nationalism](#) Sathianathan Clarke, Stephen Pickard, 2022-03-08 The twenty first century has seen violence thunder back onto the stage of history Religious political social cultural and economic constituents and interests thus contribute to the local and global manifestations of violence in our interconnected and contracting global world Firmly embedded within the field of religion the authors of this volume concede that religious motifs and impulses are alive and well in this unfolding of bloodshed It is no wonder then that in our volatile historical age religious fundamentalism and illiberal nationalism have emerged as dominant contemporary movements Against this backdrop the contributors to this edited book look back in order to move forward by reflecting upon the truth force Satyagraha that grounded and guided Mohandas Karamchand Gandhi 1869 1948 On the heels of several commemorations in 2019 of the 150th anniversary of Gandhi s birth we reexamine the truths of his philosophy and nonviolent strategy to resist religious and political fundamentalisms Embracing truth was for Gandhi the only way to achieve complete freedom poorna Swaraj The goal of freedom which Gandhi conceptualized as profoundly personal expansively communitarian and organically ecological emanates from a firm grasp of truth

Nonviolence Senthil Ram, Ralph Summy, 2008 The so called war on terror has gone badly for the West playing directly into the strategy of al Qa ida and the rest of the terrorist network Why did this happen Were there other approaches that might have been implemented with better prospects of success This edited collection of perspectives on the non violent counter to terrorism opens the topic to serious consideration The development of a non violent paradigm brings into sharp focus the deficiencies of present thinking and paves the way for comprehending how non violence might overcome those deficiencies and introduce viable alternatives Since there is a general ignorance about the history theory and operational dynamics of non violence these aspects are featured throughout the book and related to the special case of terrorism To understand empathetically the background and mind set of the opponent without condoning his actions to study his culture to avoid the strategic trap he has set to examine

the different gender reactions of a Muslim Society to differentiate between non violent Islam and Islamic Terrorism to jettison the misinformed baggage we carry about violence to appreciate the positive role education and aesthetics can play and to investigate ways in which a non violent counter to terrorism might be staged including a Gandhian response These are just some of the tasks that the contributors have collectively pursued Their ideas excitingly open up a whole new set of possibilities for a more peaceful world

Reconstructing Nonviolence Roberto Baldoli,2018-09-03 Nonviolent methods of action have been a powerful tool since the early twentieth century for social protest and revolutionary social and political change and there is diffuse awareness that nonviolence is an efficient spontaneous choice of movements individuals and whole nations Yet from a conceptual standpoint nonviolence struggles to engage with key contemporary political issues the role of religion in a post secular world the crisis of democracy and the use of supposedly nonviolent techniques for violent aims Drawing on classic thinkers and contemporary authors in particular the Italian philosopher Aldo Capitini this book shows that nonviolence is inherently a non systematic and flexible system with no pure immaculate thought at its core Instead at the core of nonviolence there is praxis which is impure because while it aims at freedom and plurality it is made of less than perfect actions performed in an imperfect environment by flawed individuals Offering a more progressive transformative and at the same time pluralistic concept of nonviolence this book is an original conceptual analysis of political theory which will appeal to students of international relations global politics security studies peace studies and democratic theory

Sites of Violence, Sites of Grace Cynthia Hess,2008-12-16 Cynthia Hess offers a thoughtful reconstruction of Christian nonviolence through an examination of both theological and theoretical works She shows how contemporary understandings of violence and the human person challenge traditional views of nonviolence as pacifism and the refusal of military violence Hess begins with an analysis of the extensive writings on nonviolence by John Howard Yoder one of the foremost twentieth century thinkers on this subject She then seeks to deepen his view by probing the insights of trauma scholars who explore the powerful and lasting effects of traumatic violence on individuals and communities These scholars often maintain that many survivors continue to hold the reality of traumatic violence within their bodies and minds so that it becomes part of them as they move through time In light of this claim Hess argues that Christian nonviolence must move beyond pacifism to directly address the problem of internalized violence In conversation with resources in Yoder s work as well as feminist theory and trauma studies she analyzes an often overlooked dimension of religious nonviolence the creation of communities in which traumatized persons can survive and flourish With its highly interdisciplinary character this book presents a fresh perspective on Christian nonviolence that not only challenges traditional views but also reclaims the centrality of nonviolence for contemporary Christian theology and practice
