Narrative

On Thursday July 16, 2009, Henry Gates, Jr. (redacted), of (redacted) Ware Street, Cambridge, MA) was placed under arrest at (redacted) Ware Street, after being observed exhibiting loud and tumultuous behavior, in a public place, directed at a uniformed police officer who was present investigating a report of a crime in progress. These actions on the behalf of Gates served no legitimate purpose and caused citizens passing by this location to stop and take notice while appearing surprised and alarmed.

On the above time and date, I was on uniformed duty in an unmarked police cruiser assigned to the Administration Section, working from 7:00 AM-3:30 PM. At approximately 12:44 PM, I was operating my cruiser on Harvard Street near Ware Street. At that time, I overheard an ECC broadcast for a possible break in progress at (redacted) Ware Street. Due to my proximity, I responded.

When I arrived at (redacted) Ware Street I radioed ECC and asked that they have the caller meet me at the front door to this residence. I was told that the caller was already outside. As I was getting this information, I climbed the porch stairs toward the front door. As I reached the door, a female voice called out to me. I turned and looked in the direction of the voice and observed a white female, later identified as Lucia Whalen. Whalen, who was standing on the sidewalk in front of the residence, held a wireless telephone in her hand and told me that it was she who called. She went on to tell me that she observed what appeared to be two black males with backpacks on the porch of (redacted) Ware Street. She told me that her suspicions were aroused when she observed one of the men wedging his shoulder into the door as if he was trying to force entry. Since I was the only police officer on location and had my back to the front door as I spoke with her, I asked that she wait for other responding officers while I investigated further.

Gates Incident Report Cambridge:

Race and Racism in the United States Charles A. Gallagher, Cameron D. Lippard, 2014-06-24 How is race defined and perceived in America today and how do these definitions and perceptions compare to attitudes 100 years ago or 200 years ago This four volume set is the definitive source for every topic related to race in the United States In the 21st century it is easy for some students and readers to believe that racism is a thing of the past in reality old wounds have yet to heal and new forms of racism are taking shape Racism has played a role in American society since the founding of the nation in spite of the words all men are created equal within the Declaration of Independence This set is the largest and most complete of its kind covering every facet of race relations in the United States while providing information in a user friendly format that allows easy cross referencing of related topics for efficient research and learning The work serves as an accessible tool for high school researchers provides important material for undergraduate students enrolled in a variety of humanities and social sciences courses and is an outstanding ready reference for race scholars The entries provide readers with comprehensive content supplemented by historical backgrounds relevant examples from primary documents and first hand accounts Information is presented to interest and appeal to readers but also to support critical inquiry and understanding A fourth volume of related primary documents supplies additional reading and resources for research

The Persistence of the Color Line Randall Kennedy, 2012-04-17 A provocative and richly insightful new book The New York Times Book Review that gives us a shrewd and penetrating analysis of the complex relationship between the first black president and his African American constituency Renowned for his insightful common sense critiques of racial politics Randall Kennedy now tackles such hot button issues as the nature of racial opposition to Obama whether Obama has a singular responsibility to African Americans the differences in Obama's presentation of himself to blacks and to whites the challenges posed by the dream of a post racial society the increasing irrelevance of a certain kind of racial politics and its consequences the complex symbolism of Obama's achievement and his own obfuscations and evasions regarding racial justice Eschewing the critical excesses of both the left and the right Kennedy offers an incisive view of Obama's triumphs and travails his strengths and weaknesses as they pertain to the troubled history of race in America

Racial Profiling Michael L. Birzer, 2012-11-14 Many racial minority communities claim profiling occurs frequently in their neighborhoods Police authorities for the most part deny that they engage in racially biased police tactics A handful of books have been published on the topic but they tend to offer only anecdotal reports offering little reliable insight Few use a qualitative methodol

Connecting Sociology to Our Lives Tim Delaney, 2015-11-17 Many introductory texts claim to make sociology relevant to student interests Perhaps no other text has done this so completely and engagingly as *Connecting Sociology to Our Lives* Tim Delaney not only uses popular and contemporary culture examples he explains sociology thoroughly within the frame of the contemporary culture of students a culture shaped by political economic and environmental trends just as much as by today's pop stars This book will help

academics to engage their students in sociology through the prism of their own culture It involves students in critical thinking and classroom discussion through the book's many What Do You Think inserts and will inspire them to careers with the book's unique chapter Sociology's Place in Society Completing the Connection The Subject of Film and Race Gerald Sim, 2014-07-31 The Subject of Film and Race is the first comprehensive intervention into how film critics and scholars have sought to understand cinema's relationship to racial ideology In attempting to do more than merely identify harmful stereotypes research on films and race appropriates ideas from post structuralist theory But on those platforms the field takes intellectual and political positions that place its anti racist efforts at an impasse While presenting theoretical ideas in an accessible way Gerald Sim's historical materialist approach uniquely triangulates well known work by Edward Said with the Neo Marxian writing about film by Theodor Adorno and Fredric Jameson The Subject of Film and Race takes on topics such as identity politics multiculturalism multiracial discourse and cyborg theory to force film and media studies into rethinking their approach specifically towards humanism and critical subjectivity The book illustrates theoretical discussions with a diverse set of familiar films by John Ford Michael Mann Todd Solondz Quentin Tarantino Keanu Reeves and others to show that we must always be aware of capitalist history when thinking about race ethnicity and films *Missed Opportunities, Shared Responsibilities* Chuck Wexler, 2010-11 On July 16 2009 Sgt James Crowley responded to a 911 call about a possible break in in progress on Ware St in Cambridge MA Crowley a respected 11 year veteran of the Cambridge police force arrived at the address which he later would learn was the home of Harvard Prof Henry Louis Gates Jr one of the most prominent African Amer scholars in the U S The situation deteriorated rapidly according to both men Within six minutes Crowley had arrested Gates for disorderly conduct and placed him in handcuffs at his own home How was this possible The Cambridge City Manager requested a study to be conducted to identify those lessons and help other cities avoid such incidents This report by the Cambridge Review Comm is the result Illus Lawyers as Leaders Deborah L. Rhode, 2013-08-02 No occupation in America supplies a greater proportion of leaders than the legal profession yet it has done little to prepare them for this role Lawyers sit at the helm of a vast array of powerful law firms businesses governmental and nonprofit organizations Two of the last three presidents have been lawyers And yet almost no occupation rouses greater public distrust This paradox raises two important questions Why do we look to lawyers to lead and why do so many of them prove to be so ill prepared for that role In *Lawyers as Leaders* eminent law professor Deborah Rhode not only answers these questions but provides an invaluable overview for attorneys who occupy or aspire to leadership positions in public and private practice settings Drawing on a broad range of interdisciplinary research biographical profiles and empirical studies she covers everything from decision making conflict management and communication to ethics and diversity in leadership and what lawyers can do to advance both their professional development and the public interest Rhode contends that the legal profession attracts many people with the ambition and analytic capabilities to be leaders but often fails to develop other

qualities that are essential to their effectiveness Successful lawyers need to be confident competitive and even combative but possessing such qualities often results in a lack of interpersonal sensitivity emotional intelligence and resilience the soft skills that both legal education and the reward structure of legal practice consistently undervalue The most successful leaders Rhode argues are those who can see past their own ambitions and retain a capacity for critical reflection on their performance The first serious work on leadership and law Lawyers as Leaders will prove essential to law students law faculty and lawyers holding or seeking governance positions

The Race Whisperer Melanye T. Price, 2016-07-26 Analyzes the manner in which Barack Obama uses race strategically to engage with and win the loyalty of potential supporters Price uses examples from Obama's campaigns and presidency to demonstrate his ability to authentically tap into notions of blackness and whiteness to appeal to particular constituencies By tailoring his unorthodox personal narrative to emphasize those parts of it that most resonate with a specific racial group Obama targets his message effectively to that audience shoring up electoral and governing support The author also considers the impact of Obama's use of race on the ongoing quest for black political empowerment Unfortunately racial advocacy for African Americans has been made more difficult because of the intense scrutiny of Obama's relationship with the black community Obama's unwillingness to be more publicly vocal in light of that scrutiny and the black community's reluctance to use traditional protest and advocacy methods on a black president From publisher description

Marvin Jones, 2024-05-02 This powerful book on racism in the United States argues that a threatening narrative originating in slavery continues to link Black people to inferiority dangerousness and crime causing them to be presumed guilty by society and U S legal systems Why are Black people stopped arrested and shot by police at such a high rate Why are they portrayed in the media as gangbangers and urban thugs D Marvin Jones writes that the problem of race lies in the way Blackness has been inextricably

knotted together in our culture with presumptions In the era of segregation this was a presumption of inferiority but in our era it is primarily a presumption of dangerousness or criminality In chapters on slavery urban spaces the drug war media portrayals and white spaces he shows how the presumption of guilt continues to shape the treatment of Black people in the United States Arguing that this presumption is not simply a matter of hate on the part of individuals but instead a social process linked to a widely shared racial ideology The Presumption points out the continuation of racial caste in the United States as a crisis for democracy and provides a blueprint for a kind of second Reconstruction
