CLUES

Srrr! The water is too cold!
Turn my knob to get it right.
Jump inside and wait for
a while. I make sure you're
clean everyday.

Step down! Step up!
The journey to reach the top
might make it hard to breathe.

By the TV I can be found.
with buttons galore to
provide some sound.

I sit in your living room all day.
When you get bored you
notice me. Turn me
on to watch your
favorite show.

Round and round
I have all your dirty clothes!
No need to worry
they're safe with me.
I'll just want to
keep them all clean.

You have one, probably more.
each with a knob and even a lock.
When company comes you will
hear a knock.

I'm soft like a cloud and
when you get sleepy you
rest your head on me.

A place where it gets
cold. I keep your food from
getting old. Inside, I keep
all the treats. Open me and
you'll see all your sweets.

The next clue
on your hunt will keep
you on your toes.
Check where your
reflection shows.

I'm always running, though I
never walk. My one hand is
longer than the other and I
have a number of
one to twelve.

When I'm hungry
feed me some bread.

after I pop.
bring on the spread.

You use me to
re-heat your food
and I beep
when I'm done.

Good School Scavenger Hunt Clues:

Good Reception Antero Garcia, 2022-06-07 A year in the life of a ninth grade English class shows how participatory culture and mobile devices can transform learning in schools. Schools and school districts have one approach to innovation: buy more technology. In *Good Reception*, Antero Garcia describes what happens when educators build on the ways students already use technology outside of school to help them learn in the classroom. As a teacher in a public high school in South Central Los Angeles, Garcia watched his students' nearly universal adoption of mobile devices. Whether recent immigrants from Central America or teens who had spent their entire lives in Los Angeles, the majority of his students relied on mobile devices to connect with family and friends and to keep up with complex social networks. Garcia determined to discover how these devices and student predilection for gameplay combined with an evolving culture of participation could be used in the classroom. Garcia charts a year in the life of his ninth grade English class, first surveying mobile media use on campus and then documenting a year-long experiment in creating a wireless critical pedagogy by incorporating mobile media and games in classroom work. He describes the design and implementation of *Ask Anansi*, an alternate reality game that allows students to conduct inquiry-based research around questions that interest them, including "Why is the food at South Central High School so bad?" Garcia cautions that the transformative effect on education depends not on the glorification of devices but on teacher support and a trusting teacher-student relationship.
