

Solutions Manual for Facilities Design, 5e by Sunderesh Heragu (All Chapters)

CHAPTER 1 - Introduction to Facility Design

1.4 Solutions

1. This is an open-ended question and could be given as a mini-project for students.
2. Design problems are those that have a longer time span, typically three to five years or more, whereas planning problems have a shorter time span. Students will come up with a long list of design and planning problems and Figure 1.1 should be of some help. Although it is desirable to solve the two problems simultaneously, so that a solution satisfies design and operational performance measures, doing so makes the problem intractable and hard to solve.
