Moreover the paper also describes the concept of education and upbringing of child through the analysis of character of Frankenstein in the novel.

Character Sketch of Victor Frankenstein

Victor Frankenstein is the major character and the most important narrator of the story. His portrayal in the novel is more of a person who had always deserted himself in loneliness which could be considered as a dangerous element of his personality. In the beginning his interest was in poetry but after some time science became his obsession. He wanted to discover the secrets of heaven and earth.

He studies the outlawed sciences and become interested about the secret of life. He studies the secrets of giving birth to an inhuman creature. After researching and all of his experiments he forms a monster to life that kills his brother, best friends, wife and everyone close to Frankenstein just because he refuses to create a mate for the monster (Shelley, Panshin, & Cook, 2009)

Victor Frankenstein continues to gain knowledge which blinds him from the effects it may have. His determination causes him to create a creature that is deformed which he instantly rejected. His main motive of creating such a creature was to become the leader of that race.
