Grade 4 Math Makes Sense Teachers Guide:

Math Trailblazers 2E G4 Teacher Implementation Guide, 2003 A research based NSF funded K5 mathematics program integrating math science and language arts Includes a Spanish translation of instructional units Math Makes Sense 4 Peggy Morrow, Ray Appel, 2007 Resources in Education, 2001 **Elementary Mathematics Curriculum Materials** Janine T. Remillard, Ok-Kyeong Kim, 2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors **Making Sense of Science** Kirsten R. Daehler, Mayumi Shinohara, Jennifer Folsom, 2011 This comprehensive professional development course for grades 6 8 science teachers provides all the necessary ingredients for building a scientific way of thinking in teachers and students focusing on science content inquiry and literacy Teachers who participate in this course learn to facilitate hands on science lessons support evidence based discussions and develop students academic language and reading and writing skills in science along with the habits of mind necessary for sense making and scientific reasoning Force and Motion for Teachers of Grades 6 8 consists of five core sessions Session 1 Motion Session 2 Change in Motion Session 3 Acceleration and Force Session 4 Force Session 5 Acceleration and Mass The materials include everything needed to effectively lead this course with ease Facilitator Guide with extensive support materials and detailed procedures that allow staff developers to successfully lead a course Teacher Book with teaching science and literacy investigations along with a follow up component Looking at Student Work designed to support ongoing professional learning communities CD with black line masters of all handouts and charts to support group discussion and sense making course participation certificates student work samples and other materials that can be reproduced for use with teachers *ENC Focus*, 2001 **Subject Guide to Books in Print**, 1996 **Mathematics & Science in the Real**
