Leisure Education: A Cross-National View Atara Sivan, Robert A. Stebbins, 2016-04-08 Leisure education plays a central role in both the field of leisure studies and the pursuit of leisure itself Everywhere in the modern world the most effective use of free time for individuals comes with knowing about

the many leisure activities available to them and the rewards and costs that accompany their interest in each. It is through leisure education in one form or another that they gain such knowledge. Yet as important as this educational process is, its study is only beginning to take off in non-Western societies where, however, it cannot be assumed to be the same as in the West. This book contains several comparisons of Western and non-Western practices in leisure education. Knowing these practices contributes ultimately to a deep understanding of the nature of the huge variety of leisure activities enjoyed across the planet and of the reasons why people go in for the ones they do. This book was based on a special issue published in the *World Leisure Journal*. *The Changing Face of Health Care Social Work* Sophia F. Dziegielewska, 2003-11-12. Updated and revised, this text advocates a proactive stance for health care social workers. It will serve as a practical guide that addresses the principles of practice in our current health care environment. With the advent of numerous health care changes such as managed health care with its focus on behaviorally based outcomes and objectives, this volume illustrates the new face of health care social work. This comprehensive text is full of practice-oriented tips, professional profiles in such diverse arenas of practice as the emergency room, home care, case management, and hospice. Questions for further study and select Website resources per chapter. It will help prepare social workers for the practice change needed in order to become viable clinical practitioners. *DSM-IV-TR in Action* Sophia F. Dziegielewska, 2002-06-21. Includes specific applications of diagnostic and psychotherapeutic considerations for the spectrum of disorders included in the DSM-IV-TR. Uses a person-in-environment context, unique among books about the DSM-IV-TR. Written by a professor who has taught thousands of students and clinicians across the country the basics of DSM-IV-TR in preparation for the licensing exam. *Library Evaluation* Danny P. Wallace, Connie J. Van Fleet, 2001-01-15. Bringing together library and information science faculty and practicing library managers, this work combines some of the most exciting concepts and methodologies of library evaluation with the practical experiences of those working in the field. A variety of approaches, e.g., focus groups, TQM, are thoroughly described, then illustrated with actual case studies. These cases can serve as inspiration and models to library managers and other individuals responsible for evaluation, as well as to those who aspire to library management positions. *The British National Bibliography* Arthur James Wells, 2009. **American Book Publishing Record**, 2003. **Mandell, Douglas y Bennett.
