Design Research in Information Systems Alan Hevner, Samir Chatterjee, 2010-06-14 It is 5 years since the publication of the seminal paper on Design Science in Information Systems Research by Hevner March Park and Ram in MIS Quarterly and the initiation of the Information Technology and Systems department of the Communications of AIS These events in 2004 are markers in the move of design science to the forefront of information systems research A suf cient interval has elapsed since then to allow assessment of

from where the field has come and where it should go Design science research and behavioral science research started as dual tracks when IS was a young field By the 1990s the influx of behavioral scientists started to dominate the number of design scientists and the field moved in that direction By the early 2000s design people were having difficulty publishing in mainline IS journals and in being tenured in many universities Yes an annual Workshop on Information Technology and Systems WITS was established in 1991 in conjunction with the International Conference on Information Systems ICIS and grew each year But that was the extent of design science recognition Fortunately a revival is underway By 2009 when this foreword was written the fourth DESRIST conference has been held and plans are afoot for the 2010 meeting Design scientists regained respect and recognition in many venues where they previously had little

Research in Education, 1968 **Intelligent Information Systems** Mieczyslaw Klopotek, Maciej Michalewicz, Slawomir T. Wierzchon, 2012-08-10 This volume contains articles accepted for presentation during The Intelligent Information Systems Symposium IIS 2000 which was held in Bystra Poland on June 12 16 2000 This is ninth in the order symposium organized by the Institute of Computer Science of Polish Academy of Sciences and devoted to new trends in broadly understood Artificial Intelligence The idea of organizing such meetings dates back to 1992 Our main intention guided the first rather small audience workshop in the series was to resume the results gained in Polish scientific centers as well as contrast them with the research performed by Polish scientists working at the universities in Europe and USA This idea proved to be attractive enough that we decided to continue such meetings As the years went by

the workshops has transformed into regular symposia devoted to such fields like Machine Learning Knowledge Discovery Natural Language Processing Knowledge Based Systems and Reasoning and Soft Computing Le Fuzzy and Rough Sets Bayesian Networks Neural Networks and Evolutionary Algorithms At present about 50 papers prepared by researches from Poland and other countries are usually presented Besides for several years now the symposia are accompanied by a number of tutorials given by the outstanding scientists in their domain Up to this year the proceedings were published as our local publication and they were distributed among the scientific libraries We feel however that the subject matter as well as the quality of papers is sufficient to present the proceedings to a broader scientific audience
