Survey of Historic Costume Phyllis G. Tortora, Sara B. Marcketti, 2015-03-12 Survey of Historic Costume presents a thorough overview and chronology of Western dress from the ancient world to the trends of today **Take the Journey** James A. Percoco, 2017-03 In Take the Journey author historian and educator James Percoco invites you and your students to the places where many events in American history happened The Journey Through Hallowed Ground is a 180 mile National Heritage area encompassing such historic sites as the Gettysburg battlefield and Thomas Jefferson's home Monticello Though it might prove difficult to visit these particular sites with your students Percoco argues that every community has a story that can be connected to larger themes in American history and that place based history education can be made a part of every classroom from Nevada to Washington to Pennsylvania Filled with students voices and an enthusiasm for American history Take the Journey offers the following Practical and easy to implement lessons Classroom tested materials Specific directions for employing place based best practices in the classroom Ways to meet state standards without sacrificing teacher creativity or hands on learning Lists of resources and primary source materials So bring your students along and let them discover the twists and turns offered by history and the Journey Through Hallowed Ground **Leading Beyond Lean** Petter

Østbø, Robin Cattermole, Mark Wetherill, 2016-09-13 Three practicing managers with years of experience improving production facilities around the world explain why lean methodology on its own often fails to deliver productivity gains and how a holistic package incorporating safety employee development business planning capital spending performance management quality and lean work can together to deliver results Improving productivity is the holy grail of every site manager But while three decades of initiatives from Kaizen through TQM to Lean Six Sigma have all had an impact the fact

remains that a few companies outperform the others This is often because individual change initiatives address only one aspect of a much more complex problem What is needed is a holistic productivity system that addresses every aspect of production To implement a productivity system in practice you need more than TQM more than Lean Based on their experience managing and improving production facilities around the world the authors show how there are seven key elements that combine to create a sustainable productivity system Leading Beyond Lean explains how these seven elements work together and how you can set up your own bespoke productivity system like they did As practising managers stb Wetherill and Cattermole have used these techniques and procedures to deliver improvements in both in safety and productivity Helping their sites to become more economically viable evolving from problem sites with uncertain futures into vibrant sites that attract reinvestment and growth They become cleaner safer and better organised and therefore more attractive places to work in This book will help any company any site manager and any production director understand what is needed to set up a lasting productivity system not in theory but in practice and to deliver outstanding results
