Signal Design for Modern Radar Systems Mohammad Alaee-Kerahroodi,Prabhu Babu,Mojtaba Soltanalian,M. R. Bhavani Shankar,2022-11-30 This book gives you a comprehensive overview of key optimization tools that can be used to design radar waveforms and adaptive signal processing strategies under practical constraints strategies such as power method like iterations coordinate descent and majorization minimization that help you to meet the more and more stressing sensing system requirements The book walks you through how radar waveform synthesis is obtained as the solution to a constrained optimization problem such as finite energy unimodularity or being constant modulus and finite or discrete phase potentially binary alphabet which are dictated by the practical limitations of the real systems Several approaches in each of these broad frameworks are detailed and various applications of these optimization techniques are described Focusing on a holistic approach rather than a problem specific approach the book shows you what you need to effectively formulate waveform design and understand the flexibility of the framework for adapting to your own specific needs You ll have full access to the tools and knowledge you need to design waveform with optimized correlation cross correlation properties for SISO SIMO and MIMO radars taking into account spectral constraints for cognitive rads as well as coexistence with communications and mitigate possible Doppler and quantization errors and more The book also includes representative software codes that further help you generate the described solutions With its unique style of covering mathematical results along with their applications from diverse areas this is a much needed detailed handbook for industry researchers scientists and designers including medical marine defense and automotive companies It is also an excellent resource for advanced courses on radar signal processing *Indian Journal of Meteorology & Geophysics* ,1962 Energy Research Abstracts ,1986 **Japan Electronics Buyers' Guide** ,1966 **Yachting** ,2001-04
