### Jsc Science Suggestion Files:

**Digital Science** Tatiana Antipova, 2022-01-17 This book gathers selected papers that were submitted to the 2021 International Conference on Digital Science DSIC 2021 that aims to make available the discussion and the publication of papers on all aspects of single and multidisciplinary research on conference topics DSIC 2021 was held on October 15 17 2021 An important characteristic feature of conference is the short publication time and worldwide distribution Written by respected researchers the book covers a range of innovative topics related to digital economics digital education digital engineering digital environmental sciences digital finance business and banking digital health care hospitals and rehabilitation digital media digital medicine pharma and public health digital public administration digital technology and applied sciences This book may be used for private and professional non commercial research and classroom use e g sharing the contribution by mail or in hard copy form with research colleagues for their professional non commercial research and classroom use for use in presentations or handouts for any level students researchers etc for the further development of authors scientific career e g by citing and attaching contributions to job or grant application *Lady Astronauts, Lady Engineers, and Naked Ladies* Karin Hilck, 2019-07-08 The book *Lady Astronauts Lady Engineers and Naked Ladies* is a gender history of the American space community and by extension a social history of American society in the twentieth century during the Cold War In order to expand and differentiate the prevalent postwar narrative about gender relations and cultural structures in the United States the book analyzes several different groups of women interacting in different social spaces within the space community It therewith grants insight into the several layers of female participation and agency in the community and the gender and race based obstacles and hurdles the female prospective astronauts scientists engineers artists administrators writers hostesses secretaries and wives were faced with at NASA and in the space industry In each chapter a different social space within the space community is analyzed The spaces where the women lived and worked are researched from a media individual and institutional angle ultimately revealing the differing gender philosophies communicated in the public sphere and the space community workplaces by government and space community officials While women were publicly encouraged to participate in the American space effort to beat the Soviet Union in the race to the moon women had to deal with gender based barriers which were integral to the structures of the space community just as they were an intrinsic component of all societal structures in the United States in the 1960s The female space workers who were often perceived as disrupters of the prevalent social order in the space community and discriminated by some of their male colleagues and bosses on a personal basis still managed to assert themselves They molded pockets of agency in the space community workspaces without the facilitation of regulations on the part of NASA that might have provided them with easier access or more agency Thus the space community a place of technological innovation was not necessarily also a place of social innovation but a community with a government agency at its center that mainly mirrored the current changing social

order conventions and policies in the 1960s as well as in the 1970s and 1980s Nevertheless the women presented in this book were instrumental in advancing and consolidating the social transformation that happened within the space community and the United States and therefore make intriguing subjects of research Thus this systematic analysis of the connection between gender space and the Cold War adds a new dimension to space history as well as expands the discourse in American history about gender relations and the opportunities of women in the twentieth century Orbital Debris ,1992 *Saving the Right Stuff* United States.
