

Notes for examiners:

1. Whenever relevant, carry over marks must be awarded. If a candidate makes an error in calculation, but then uses the incorrect figure appropriately and accurately in later question parts, then the candidate may be fully rewarded. This is the "own-figure rule" and you should put OFR on the script where you are rewarding this. To do this you will need to use the on-page comment annotation tool ().
2. Alternative approaches may be taken in responses to the [4 mark] questions that use A02 command terms. If this is the case and the alternative approaches are valid, then full credit should be given.

(i) the opportunity cost of producing each kilogram of wheat in Country A; [1]

(ii) the opportunity cost of producing each kilogram of rice in Country A; [1]

(iii) the opportunity cost of producing each kilogram of wheat in Country B; [1]

$100/200 = 0.5 \text{ kg rice}$ [1]

An answer of 0.5 kg rice (without workings) is sufficient for [1 mark].

(iv) the opportunity cost of producing each kilogram of rice in Country B. [1]

$200/100 = 2.0 \text{ kg wheat}$ [1]

An answer of 2.0 kg wheat (without workings) is sufficient for [1 mark].

(b) From your answers to part (a), identify which country holds a comparative advantage

The Truth About Immigration Zeke Hernandez, 2024-06-04 The go to book on immigration fact based comprehensive and nonpartisan Immigration is one of the most controversial topics in the United States and everywhere else Pundits politicians and the public usually depict immigrants as either villains or victims The villain narrative is that immigrants pose a threat to our economy because they steal our jobs our way of life because they change our culture and to our safety and laws because of their criminality The victim argument tells us that immigrants are needy outsiders the poor huddled masses whom we must help at our own cost if necessary But the data clearly debunks both narratives From jobs investment and innovation to cultural vitality and national security more immigration has an overwhelmingly positive impact on everything that makes a society successful In *The Truth About Immigration* Wharton professor Zeke Hernandez draws from nearly 20 years of research to answer all the big questions about immigration He combines moving personal stories with rigorous research to offer an accessible apolitical and evidence based look at how newcomers affect our local communities and our nation You ll learn about the overlooked impact of immigrants on investment and job creation realize how much we take for granted the novel technologies products

and businesses newcomers create get the facts straight about perennial concerns like jobs crime and undocumented immigrants and gain new perspectives on misunderstood issues such as the border taxes and assimilation Most books making a case for immigration tell you that immigration is good for immigrants This book is all about how newcomers benefit you your community and your country Skeptics fear that newcomers compete economically with locals because of their similarities and fail to socially assimilate because of their differences You ll see that it s exactly the opposite newcomers bring enduring economic benefits because of their differences and contribute positively to society because of their similarities Destined to become the go to book on one of the most important issues of our time this book turns fear into hope by proving a simple truth immigrants are essential for economically prosperous and socially vibrant nations **The**
