Sergi, 2018-10-04 This book features technical portrayals of today s constantly developing banking issues including stock market contagion the impact of internet technology IT and financial innovation on stock markets and a perspective on the loan puzzle in emerging markets **Corporate Espionage, Geopolitics, and Diplomacy Issues in International**

Business Christiansen, Bryan, Kasarci, Fatmanur, 2016-10-31 As global business competition continues to accelerate it is imperative that managers and executives examine all facets of an organization so that it remains successful Often dynamics such as espionage diplomacy and geopolitical atmosphere have a great impact on daily operations of an organization however these areas are often overlooked Corporate Espionage Geopolitics and Diplomacy Issues in International Business highlights strategic planning and operations tactics in the areas of human resource management and security Featuring the impact of espionage geopolitics and diplomacy this book is an insightful reference for business and government executives scholars graduate and undergraduate students and practitioners *ECONOMETRICS* DAS, PANCHANAN, 2025-06-02 This textbook presents econometrics as a powerful set of data analytic techniques central to empirical research in economics and related disciplines Designed with clarity and accessibility in mind the book integrates theoretical foundations with practical

applications to help undergraduate and postgraduate students grasp both the conceptual and computational aspects of econometrics. The text covers a broad spectrum of econometric techniques applicable to cross sectional time series and panel data. Beginning with the classical linear regression model, it systematically introduces extensions that relax standard assumptions, handle qualitative variables, and explore issues of model specification and estimation. Special emphasis is placed on the application of these models using real world datasets such as the Periodic Labour Force Survey (PLFS) and the Annual Survey of Industries (ASI) with practical illustrations implemented using Stata 18. The book addresses key challenges in time series econometrics including nonstationarity, unit roots, structural breaks, and stochastic trends, while offering a thorough understanding of advanced topics like cointegration, vector autoregression, and conditional heteroscedasticity. The importance of time-varying volatility and conditional heteroscedasticity is also explored in depth. Panel data econometrics forms another core component, highlighting the advantages of combining time series and cross sectional dimensions. Both static and dynamic panel models are discussed along with unit root testing in panel settings. The empirical applications draw attention to important policy relevant questions such as gender wage disparities, the finance-growth relationship, and the dynamics of budget deficits, debt, and economic growth in India. By blending econometric theory with applied case studies and computational techniques, this book serves as a comprehensive and student-friendly resource for mastering econometrics as it is practiced in real world economic research today.

KEY FEATURES Covers the statistical tools needed to understand empirical economic research and to plan and execute independent research projects. Provides balanced discussion of the theories with software applications. Various concepts and techniques of econometric analysis are supported by carefully developed examples with the use of statistical software package. Bridges the gap between learning econometrics and learning how to use software. Uses Stata help manuals from the Stata Corporation for detailed explanation and syntax for all the commands. Provides three empirical studies by applying appropriate econometric methods using cross section, time series, and panel data.

Asia-Africa Development Divergence David Henley, 2015-02-12. Why have South East Asian countries like Malaysia, Indonesia, and Vietnam been so successful in reducing levels of absolute poverty while in African countries like Kenya, Nigeria, and Tanzania, despite recent economic growth, most people are still almost as poor as they were half a century ago? This book presents a simple, radical explanation for the great divergence in development performance between Asia and Africa: the absence in most parts of Africa and the presence in Asia of serious developmental intent on the part of national political leaders.

Agriculture, Natural Resources and Food Security

Jagadish Timsina,Tek N. Maraseni,Devendra Gauchan,Jagannath Adhikari,Hemant Ojha,2022-11-01 This book explains how a former net food exporting Nepal has become a net food importing country due to a lack of an integrated system wide approach to planning and governance of agriculture and natural resources It demonstrates how various components of the food system such as agronomy agrobiodiversity plant health post harvest management livestock and fisheries and socio economics including marketing and trade have been managed in sectoral silos crippling the very foundations of food systems innovations The book also explores ways to tackle climate change impacts while considering gender social equity conservation agriculture practices and crop modeling as cross cutting themes This book utilizes Nepal as a case study in relation to wider questions of food security and livelihoods facing South Asia and synthesizes lessons that are relevant to the Global South where countries are struggling to harmonize and integrate natural resources management for sustainable and effective food security outcomes As such it significantly contributes to the knowledge toward achieving various United Nations Sustainable Development Goals
