Marcus London Guide:

Twins in Early Modern English Drama and Shakespeare Daisy Murray, 2017-01-06 This volume investigates the early modern understanding of twinship through new readings of plays informed by discussions of twins appearing in such literature as anatomy tracts midwifery manuals monstrous birth broadsides and chapbooks The book contextualizes such dramatic representations of twinship investigating contemporary discussions about twins in medical and popular literature and how such dialogues resonate with the twin characters appearing on the early modern stage Garofalo demonstrates that in this period twin births were viewed as biologically aberrant and because of this classification authors frequently attempt to explain the phenomenon in ways which call into question the moral and constitutional standing of both the parents and the twins themselves In line with current critical studies on pregnancy and the female body discussions of twin births reveal a distrust of the mother and the processes surrounding twin conception however a corresponding suspicion of twins also emerges which monstrous birth pamphlets exemplify This book analyzes the representation of twins in early modern drama in light of this information moving from tragedies through to comedies This progression demonstrates how the dramatic potential inherent in the early modern understanding of twinship is capitalized on by playwrights as negative ideas about twins can be seen transitioning into tragic and tragicomic depictions of twinship However by building toward a positive comic representation of twins the work additionally suggests an alternate interpretation of twinship in this period which appreciates and celebrates twins because of their difference The volume will be of interest to those studying Shakespeare and Renaissance Literature in relation to the History of Emotions the Body and the Medical Humanities **London's West End** Rohan McWilliam, 2020 The first history of the West End of London showing how the nineteenth century growth of theatres opera houses galleries restaurants department stores casinos exhibition centres night clubs street life and the sex industry shaped modern culture and consumer society and made London a world centre of entertainment and glamour

Mapping the Modern Mind: Virginia Woolf's Parodic Approach to the Art of Fiction in "Jacob's Room"

Lindy van Rooyen, 2012-05 In this study the author conducts a close reading of Virginia Woolf's first experimental novel *Jacob's Room* 1922 Her reading is based on the fundamental premise that the novel is an exploration of fictional form rather than an exposition of any preconceived idea *Jacob's Room* is an essentially modernist text and is characterised by extensive genre mixing typical of the art of fiction in the early 20th century Throughout her study the author analyses the extent to which the novel transgresses the boundaries of the novelistic genre She explores the generic interface between the novel and those genres which are deemed to be innate to Virginia Woolf's sensibility i.e. the journalistic essay biography and impressionist painting The premise of this study leads the author to read the novel on two levels of significance On the narrative surface level of the novel Woolf constructs the tragic life of a promising young Englishman Jacob Flanders who dies in the First World War Simultaneously on the metafictional level of significance Woolf through her garrulous narrator mocks and evaluates the actions of her characters experimenting with various points of view in an attempt to define the character of her protagonist *Jacob's Room* is thus conceived as a mental space in which a modern writer's mind is mapped The central aesthetic question which is debated in this room or forum relates to the essential art of modern fiction in general and the efficiency of characterisation in fiction in particular It is argued that Virginia Woolf probes into the epistemic question of the essence of modern man and in an attempt to capture the essence of her protagonist speculates on the corresponding literary question how and to what extent the soul of man can be represented in fiction The author uses this generic approach to the novel as a broad structuring principle for her study of *Jacob's Room* After discussing the socio-political context of modernism in the early 20th century including the impact of the First World War on modernist writing she focuses her study on those aspects of Woolf's fiction which are deemed fundamental to the narrative strategy in *Jacob's Room* i.e. the role and nature of Woolf's humour within the context of modernism the nodes or clusters of metaphors and symbols recurring in the text the role of the narrator as toastmaster of the debate on character and fiction in *Jacob's Room* the extent to which the

novel parodies the new biography of the early twentieth century and the extent to which Woolf transvaluates the tools of impressionist painting into modernist fiction

Exploring the Frontiers of Fiction: Humour, Modernism and Narrative Form in Virginia Woolf's "Jacob's Room" (1922) Lindy van Rooyen, 2012-02-15 Inhaltsangabe Introduction

Virginia Woolf is not a popular writer Despite a fierce pride in her work it was never her ambition to be one Most people have heard of her work vaguely associating it with the second wave of the women s liberation movement in the 1970s and the type of fiction that is commonly called difficult and few people unfamiliar with her work would associate her reputation with humour These are some of the first impressions of a writer who is now hailed by scholars of English literature as one of the icons of modernism To speak of first impressions of Virginia Woolf s work is not as fatuous as it may seem After all Woolf s fiction was initially founded on impressions and I hope to show that one of the distinctive characteristics of her oeuvre compared to other modernists like T S Eliot W B Yeats or James Joyce is the intensely visual nature of her art Furthermore she is often associated with a movement of modern painting in the early twentieth century known as Post Impressionism including painters like C zanne Picasso and Georges Braque Finally laughter in all its registers whether merry cruel or parodic runs like a golden thread throughout the texture of her essays short stories and novels as satire does more generally throughout modernism I have chosen Virginia Woolf s third novel Jacob s Room 1922 as the focus of my study of Woolf s modernism It is not her best known novel as most critical acclaim is reserved for Mrs Dalloway 1925 or To the Lighthouse 1927 She started writing fiction in 1915 just as the First World War started and for four reasons I believe that Jacob s Room is the perfect starting point from which to survey Woolf s particular contribution to the Modernist Movement Firstly the social catastrophe associated with the First World War is widely considered to be the decisive historic event in the collective consciousness of early twentieth century Europe its effects reverberating throughout the literary and visual arts in the 1920s Secondly Jacob s Room was published in a year which falls nicely within the boundaries of the period of High Modernism which culminated in the decades between 1910 and 1930 Indeed the year of 1922 marks the publication of two other seminal modernist works T S Eliot s Wasteland and James Joyce s Ulysses Thirdly Jacob s Room is commonly regarded as Virginia Woolf s first experimental novel in which she in her own phrase
