Designing Web-Based Applications for 21st Century Writing Classrooms George Pullman,Gu Baotong,2016-12-05 Designing Web Based Applications for 21st Century Writing Classrooms brings together for the first time a group of scholars and teachers who have been developing on their own initiative web based solutions to technical and professional writing instructional problems In industry the perennial question is whether to buy or build but in academia for various reasons buy is rarely an option Individual faculty members do not have the money to pay for software solutions and often their interests are too local or small scale to warrant institutional level involvement In addition the design of commercial applications from vendors typically does not take into account the unique needs and considerations of teachers of writing and often reflects a design ideology quite different from theirs This is why so many writing teachers have turned to open source solutions and in the process of learning how to tweak them to make them more responsive to their specific needs why so many of these teachers have developed programming and design skills Beyond exigency the motivation for becoming proficient at interface and database design comes from the observation that the nature of writing is changing dramatically Text is no longer an object It has become a place of interaction consumers are becoming producers And the work of technical and professional communication indeed the work of writing teachers more generally is becoming increasingly involved in the design and implementation of places of interaction Words have become data texts are becoming communities

Inviting Understanding Sonja K. Foss,Cindy L. Griffin,2020-08-20 Inviting Understanding A Portrait of Invitational Rhetoric is an authoritative reference work designed to provide a comprehensive overview of the theory of invitational rhetoric developed twenty five years ago by Sonja K Foss and Cindy L Griffin This theory challenges the conventional conception of rhetoric as persuasion and defines rhetoric as an invitation to understanding as a means to create a relationship rooted in equality immanent value and self determination Rather than celebrating argumentation division and winning invitational rhetoric encourages rhetors to listen across differences to engage in dialogue and to try to understand positions different from their own Organized into the three categories of foundations extensions and applications Inviting Understanding is a compilation of published articles and new essays that explore and expand the theory The book provides readers with access to a wide range of resources about this revolutionary theory in areas such as community organizing social justice activism social media film graffiti institutional and team decision making communication and composition pedagogy and interview protocols

Teaching the Novel across the

Curriculum Colin C. Irvine, 2007-11-30 Instructors at all levels are being encouraged to teach writing in their courses even in subjects other than English. Because the novel reflects a broad set of human experiences and history, it is the ideal vehicle for learning about a wide range of issues. This book helps educators learn how to incorporate novels in courses in English, the humanities, social and behavioral sciences, and professional studies. The chapters focus on using the novel to explore ethical concerns, multiculturalism, history, social theory, psychology, social work, and education. The book looks at major canonical works as well as graphic novels and popular literature. Language arts are at the forefront of education these days. Instructors at all levels are being encouraged to teach writing in their courses even if those courses cover subjects other than English. Literature instructors have long used fiction to teach composition. But because the novel reflects a broad range of human experiences and historical events, it is the ideal medium for learning about contemporary social issues. This book helps educators learn how to use the novel in courses in English, the humanities, social and behavioral sciences, and professional studies. The book is divided into broad sections on general education classes, multiculturalism, literature classes, humanities courses, classes in social, behavioral, and political sciences, and professional studies such as social work and teacher training. Each section includes chapters written by gifted teachers and provides a wealth of theoretical and practical information. While the book examines major canonical works such as *Hard Times*, *Billy Budd*, and *Invisible Man*, it also looks at graphic novels, science fiction, and popular contemporary works such as *Finishing School* and *Jarhead*. Chapters reflect the personal successes of their authors and cite works for further reading.

Composition Theory for the Postmodern Classroom Gary A. Olson, Sidney I. Dobrin, 1994-05-24 *Composition Theory for the Postmodern Classroom* is a collection of the most outstanding articles published in the *Journal of Advanced Composition* over the last decade. Together, these essays represent the breadth and strength of composition scholarship that has fruitfully engaged with critical theory in its many manifestations. In drawing on the critical discourses of philosophers, feminists, literary theorists, African Americanists, cultural theorists, and others, these compositionists have enriched the discourse in the field, broadened intellectual conceptions of the multiple roles and functions of discourse, and opened up an infinite number of questions and new possibilities for composition theory and pedagogy.

Large-class Pedagogy David J. Hornsby, Ruksana Osman, Jacqueline De Matos-Ala, 2013-08-01 I highly recommend this edited collection. It is a timely intervention when universities around the world are facing changes akin to the newspaper industry a decade ago. The authors remind us of the potential power of the lecture and that there does not need to be a trade off between the size of the class and the quality of the delivery. Professor James Arvanitakis, 2012 recipient of the Prime Minister's Teaching and Learning Award, University of Western Sydney, Australia. This is the first book of its kind that considers the complex issues of large classes. As such, it makes a very important contribution and provides a deep insight into large class pedagogy from a conceptual and practical perspective. Dr. Mandia Menits Massey, University of New Zealand. If the thought of teaching large classes fills you with dread, if you think that pedagogic innovation is impossible in the face of

burgeoning student numbers or if you simply wish to understand more about the dynamics of this increasingly common environment in Higher Education then this is the book for you Written by highly experienced academics it is a valuable and long overdue resource for supporting good practice in the large class context Dr Jenny Hadingham University of Rochester New York
