Myths Legends Of California:

Myths and Legends of California and the Old Southwest Various, 2022-09-16 In *Myths and Legends of California and the Old Southwest* the readers are offered a tapestry weaved from the rich folklore of California and the American Southwest. This compilation brings to life the stories passed down through generations embodying the cultural and spiritual traditions of the region's Native American tribes and the narratives shaped by the Spanish and Mexican influences. Its prose echoes the oral tradition it preserves and its contextual framework contributes significantly as literature that bridges the ancient with the modern, valuing the narrative as a living artifact of culture and belief systems. In resurrecting these tales DigiCat Publishing presents them with the reverence appropriate for such quintessential human expressions within a digest reimagined for contemporary access and scholarly examination. The compendium characterizes the collective task undertaken by various anonymous contributors over time who have played the role of storytellers and chroniclers. The influences leading these authors to preserve these tales likely stems from a desire to capture the ephemeral nature of oral traditions and to celebrate the diversity and depth of the region's mythic landscape. DigiCat's mission, a commitment to honoring the legacy of humanity's written treasures, provides the care and fidelity expected for such a cultural preservation endeavor. The publishers ensure that the myths and legends continue to resonate with both historical authenticity and literary charm. This edition is recommended for those who seek to explore the mythology of the American Southwest, scholars of cultural studies and the curious reader drawn to the timeless allure of folklore. These tales provide valuable insights into the worldviews and values of cultures from an era and region rich in narrative texture. As such *Myths and Legends of California and the Old Southwest* is more than a collection of stories; it is an indispensable repository for understanding the complexity and universality of the human storytelling tradition and an appreciation of the cultures from which these narratives arose.

Myths and Legends of California and the Old Southwest Katharine Berry Judson, 2018-03-04 This looks at some of the old tales and stories spread about the Southwest during the 19th century drawing upon Native legends and mythology. From the preface: In the beginning of the New making the ancient fathers lived successively in four caves in the Four fold containing earth. The first was of sooty blackness black as a chimney at night time the second dark as the night in the stormy season the third like a valley in starlight the fourth with a light like the dawning. Then they came up in the night shine into the World of Knowing and Seeing. So runs the Zuni myth and it typifies well the mental development insight and beauty of speech of the Indian tribes along the Pacific Coast from those of Alaska in the far away Northland with half of life spent in actual darkness and more than half in the struggle for existence against the cold and the storms loosed by fatal curiosity from the bear's bag of bitter icy winds to the exquisite imagery of the Zunis and other desert tribes on their sunny plains in the Southland. It was in the night shine of this southern land with its clear dry air and brilliant stars that the Indians looking up at the heavens above them told the story of the bag of stars of Utset the First Mother who gave to the scarab

beetle when the floods came the bag of Star People sending him first into the world above It was a long climb to the world above and the tired little fellow once safe sat down by the sack After a while he cut a tiny hole in the bag just to see what was in it but the Star People flew out and filled the heavens everywhere Yet he saved a few stars by grasping the neck of the sack and sat there frightened and sad when Utset the First Mother asked what he had done with the beautiful Star People The Sky father himself in those early years of the New making spread out his hand with the palm downward and into all the wrinkles of his hand set the semblance of shining yellow corn grains gleaming like sparks of fire in the dark of the early World dawn See said Sky father to Earth mother our children shall be guided by these when the Sun father is not near and thy mountain terraces are as darkness itself Then shall our children be guided by light So Sky father created the stars Then he said And even as these grains gleam upward from the water so shall seed grain like them spring up from the earth when touched by water to nourish our children And he created the golden Seed stuff of the corn We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
