This Companion Textbook supplements the ActivEpi CD ROM sold separately. The ActivEpi CD ROM provides a multimedia presentation of concepts commonly taught in an introductory epidemiology course. ActivEpi mixes a full array of media to motivate, explain, visualize, and apply epidemiological concepts. Virtually all of the material on the ActivEpi CD ROM is included in the Companion Textbook. Because individuals differ in their learning skills, the ActivEpi CD ROM and the ActivEpi Companion Textbook offer readers different but related options on how to learn epidemiology. The Textbook can be used as a hardcopy reference of the textual materials contained on the CD ROM as a resource for the practice exercises as a general reference or even a self-contained textbook. ActivEpi includes 15 lessons and over 50 hours of content via more than 250 launchable activities and homework exercises. It can be used in a variety of teaching formats: distance learning, self-paced learning on campus, courses and short courses. For the latest additions to ActivEpi, visit David Kleinbaum's website.
