SEWING GUIDE

Dear User,

The Instruction Booklet shows you how to operate your Elna.

This Sewing Guide contains practical hints for easy sewing. It will help you to get the best out of your Elna and spend many happy hours with it.

Although far from being exhaustive, the Guide gives you a good idea of the wide range of possibilities for practical and decorative sewing that are available to you, either by using the standard equipment of your machine, or by acquiring one of the additional extra accessories.

Remember to inquire regularly at Elna shops and you will constantly make interesting discoveries. If you want to look up something in a hurry, consult the index on the last page.

Needle, Thread and Material

It is preferable to use good quality dull or mercerized thread. For darning, use fine left-twist thread, because it is stronger. Remember that a dry thread becomes brittle. The best sewing machine will give poor results with a bad needle.

A golden rule:

Select the thread according to the type of work and material, and the needle according to the thread.

Darning, sewing or embroidery thread, depending on the fineness, durability or appearance of the job to be sewn.

First, get used to simple sewing and you will be able to make use of other Elna possibilities with greater confidence, later on.

The type of thread or needle size will be referred to subsequently only in special cases.
