Objectives/Outcomes The student will analyze and evaluate what is read to draw conclusions from text detail as supported by text evidence. Essential Questions How do authors allow the reader to understand text features – including characters, setting, and plot – by indirectly showing instead of directly telling? SA/SN/TE Content CC.1.3: Reading Literature: Student read and respond to works of literature – with a focus on comprehension, making connections among ideas and between texts with focus on textual evidence. CC.1.3.2.G: Use information from illustrations and media, on print or digital text, to demonstrate understanding of characters, setting, or plot. CC.1.4.2.2: Create an organizational structure that includes a reason and include a concluding statement. 1.2.2.D: Make inferences from text when choosing a topic (e.g., science, social studies) and draw conclusions, citing evidence from the text to support answers. Essential Questions For Drawing Conclusions:

Get the Picture: Visual Literacy in Content-Area Instruction Marva Cappello, Nancy T. Walker, 2019-07-01 Visual sources are increasingly prevalent in today's society. This cross-curricular resource by Marva Cappello and Nancy T. Walker provides teachers with new and engaging strategies to help students closely read visual texts. Teachers will learn to evaluate the complexity of visual texts and match them to their students. Students will learn to analyze visual sources, understand both explicit and implicit messages, interpret underlying meaning, and engage in meaningful discussion. Based on practical research, this approach offers students engagement in the full suite of Language Arts as defined by the International Literacy Association and National Council of Teachers of English: reading, writing, listening, speaking, viewing, and visually representing. The strategies are divided by purpose: receptive and productive strategies, and arranged by content area to support all teachers. Sample lessons for grades K-1 and 2-3 are provided for each strategy. With concrete tools and techniques and a wide range of suggested visual texts to use in the classroom, teachers can prepare students for interaction with primary sources, digital media, and the visual-heavy world of 21st-century learning. Digital downloads of visual texts and student pages are included.

Education and Climate Change Fernando M. Reimers, 2020-12-03 This open access volume draws on a multidimensional model of educational change the book reviews the field of climate change education and identifies some of the areas in which past efforts have fallen short in supporting effective pedagogical change at scale It then formulates an

approach to engage university students and faculty in partnering with schools and adult education institutions and directly contribute innovative curricula on climate change The approach is illustrated with several case studies which present curricula developed to support school based innovation in the Middle East and in Guatemala and adult education in Haiti and Pakistan and educators preparation at the university level The approach followed to develop innovative curriculum follows five steps 1 What are the specific impacts of climate change in this jurisdiction How do they impact various human populations 2 What knowledge dispositions and behaviors could mitigate the impact of climate change and are there ways in which changes in the behaviors of populations in this jurisdiction could slow down climate change 3 What are the means of delivery to reach each of the specific populations in this jurisdiction who needs to be educated on climate change 4 What curriculum can help educate each population 5 What role can the institution we are collaborating with play in advancing climate change education in that jurisdiction The various chapters of the book present the conceptual foundation of these programs and illustrate how these programs respond to specific characteristics of local contexts These programs focus in schools non formal settings and educator preparation institutions The chapters offer examples of general value beyond the specific contexts for which they were designed as they illustrate how in order to be optimally useful climate change education needs to be firmly grounded in the specifics of a context and responsive to that context
