

Foxboro® 876CR Transmitter

For Contacting Conductivity
and Resistivity

Model 876CR Transmitter Description

The Foxboro® brand Model 876CR is a 2-wire loop powered intelligent transmitter that, when used with appropriate electrochemical sensors, provides measurement, local display, and transmission of contacting conductivity, resistivity or concentration. The transmitter outputs a HART digital signal and a 4 to 20 mA analog output. For contacting conductivity or resistivity applications requiring a two-wire, loop powered transmitter, the Foxboro brand Model 876CR with Foxboro sensors provides the most flexible solution for wide ranging application conditions. Unlike other contacting conductivity and resistivity measurement solutions, Foxboro's offering provides the widest choice of sensing and configuration selections, resulting in the best possible match for your application. The result is long service life, quick and easy application set changes, and savings in both material and labor costs.

Summary

The Foxboro Model 876CR is a full featured transmitter for contacting conductivity and resistivity applications. It offers easy configurability, a rugged field-mounted enclosure for the most challenging industrial environments, and agency certifications for hazardous electrical areas. HART communications and a time saving HART Device Type Manager integrates with your plant asset management strategies.

Business Value

Unlike other contacting conductivity and resistivity measurement solutions, Foxboro's offering provides the widest choice of sensing and configuration selections, resulting in the best possible match for your application. The result is long service life, quick and easy application set changes, and savings in both material and labor costs.
