In *Philosophizing ad Infinitum* one of his most remarkable and daring books Conche articulates a unique and powerful understanding of nature inclusive of humanity as infinite in time and space ever self-renewing eternal and beyond complete understanding or control. In today's world the notion of infinity is at the core of the crisis humanity faces understanding nature. For the last two hundred years economies have been running at full speed fueled by the implicit belief that natural resources are infinite however it is clear that they are not and that humanity needs to radically rethink the foundations of environmental and economic systems. Conche seeks to begin this rethinking illustrating along the way insightful and sometimes unorthodox ideas about Plato Aristotle Epicurus Montaigne Nietzsche Bergson and others Cesti: The Extant Fragments (Die Griechischen Christlichen Schriftsteller Der Ersten Jahrhunderte) Sextus Julius Africanus, 2007 Iulius Africanus has rightly been called the Father of Christian Chronography. His world chronicle is one of the few works of Christian literature pioneering a new genre. Late Antiquity and the Middle Ages mainly articulated their reflection on history in the form of the world chronicle. The work has not been preserved in its entirety the extant fragments have to be laboriously pieced together from the works of later authors. To date there has not been a critical edition of this material and the edition in use today dates back nearly 200 years. J. M. Routh 1814. This new edition in the GCS series closes an old gap in the programme of this series and at the same time marks a new beginning because this is the first edition ever in this series to be published with an English translation. The edition establishes a completely new foundation for our knowledge of Early Christian historical thinking and in addition provides an important component in our understanding of an important epoch the Imperial Crisis of the 3rd century in which the new world of Late Antiquity began to develop out of the Hellenic Roman heritage **The Complete Works of Sir Richard Francis Burton** Richard Francis Burton, 2023-12-27 The Complete Works of Sir Richard Francis Burton presents a remarkable compendium of the diverse and irreplaceable contributions of one of the Victorian era's most enigmatic explorers and linguists. His works spanning poetry travel narratives and translations not only reflect the complexities of 19th-century imperial attitudes but also challenge them presenting alternative perspectives on colonial encounters and human behavior. Sir Richard
