championing the rights of working people the vast majority of the citizenry Teachers have been convinced that to bring up class or to teach about the labor movement may be construed as taking sides while the all pervasive presence of corporate America in our schools is rarely questioned So for all the talk of schools preparing young people for the work world we are failing to teach them even the basics of how that world is structured or how they can be empowered through collective action Organizing the Curriculum Perspectives on Teaching the US Labor Movement is the first book length treatment of this blind spot in contemporary curriculum and pedagogy Contributors to this collection unionists activists teachers teacher educators and academics interrogate the ways in which knowledge is constructed in school discourses conceptualize pedagogical strategies and curricula that open discussions around class analysis and political economy via studies of the labor movement and put forward an activist vision of education that truly engages young people beyond the classroom walls Crash Course in Family Literacy Programs Rosemary Chance, Laura Sheneman, 2012-03-08 This book collects the research on literacy information regarding the importance of reading to children sources of funding and places to find information about literacy programs in the 50 states all in a single volume Family literacy programs can be remarkably effective in helping families who struggle in various areas of literacy or supporting their children s academic needs Crash Course in Family Literacy Programs provides an introduction and an overview of this critical subject defining what literacy family literacy and family literacy events are and covering critical topics such as sources of funding conclusions of recent research and bilingual family literacy The first half of the book is focused on laying out background information about family literacy while the remainder provides practical how to information for public and school libraries to develop their own family literacy programming The book shows perspectives of public librarians school principals children s book store owners and school personnel who have successfully implemented a family literacy program Planning sheets and lesson templates are included making it easy to develop a family literacy program *Children's Books in Print* R R Bowker Publishing, Bowker, 1999-12 **School Library Journal** ,2009 *MultiCultural Review* ,2002
