The African Book Publishing Record, 2006 **Large Scale School Reform and Social Capital Building** Ian R. Haslam, Myint Swe Khine, Issa M. Saleh, 2013-06-26 This book introduces and explores the nature of large scale reform and offers a fresh insight into the importance of social capital and professional development leadership for teachers and school management It synthesizes research on the role of the professional development leader and the importance of social capital in schools and examines its potential to impact large scale system wide reform projects The text presents a range of international examples and theories from renowned researchers and educationists which illustrate the challenge of raising the prominence of education social capital in schools Considering crucial research that informs effective adult learning interventions underlying themes supporting constructivist and transformative interventions are identified and woven into the narrative Factors and variables needed to encourage and implement initiatives are examined and each section is accompanied by case studies from around the world The book is split into five sections and twelve parts which include The Lesson of Large Scale Reform for Leadership Development Assessment of Wide Scale Educational Reform Initiatives Developing Social Capital through National Education Reform System Improvement through Professional Learning Communities Large Scale School Reform and Social Capital Building will be of interest to policy makers and system reform leaders along with researchers and postgraduate students with a focus on continuous professional development educational reform and school leadership *Education for All 2000-2015: Achievements and challenges* UNESCO, 2015-04-08 Literaturverz S 414 459 The National Language Lydia Nyati-Ramahobo, 1999 *The Practice of English as a Medium of Instruction (EMI) Around the World* Carol Griffiths, 2023-08-08 This edited volume presents eleven empirical papers reporting the existing literature and the results of an original study focusing on EMI English as a medium of instruction in a particular area Central and Eastern Europe Western and Southern Europe Nordic Baltic countries Central Asia the Middle East East Asia South East Asia North Africa Sub Saharan Africa South Asia and Latin America Each of these different areas tends to have its own ways of dealing with the EMI issue and these are brought together in a meta analysis in the final chapter Implications for the conduct of English as a medium of instruction are drawn both on a chapter by chapter basis and also in the meta analysis The examination of EMI on a contextual basis is a unique feature of this book setting it apart from others in the field which almost all deal with a single or limited context The volume will be of interest to policymakers institutional heads graduate students and their teachers and to thesis writers and researchers Accountability in education: meeting our commitments UNESCO, 2017-10-30 The second edition of the Global Education Monitoring Report GEM Report presents the latest evidence on global progress towards the education targets of the UN Sustainable Development Goals With hundreds of millions of people still not going to school and many not achieving minimum skills at school it is clear education systems are off track to achieve global goals The marginalized currently bear the most

consequences but also stand to benefit the most if policy makers pay sufficient attention to their needs Faced with these challenges along with tight budgets and increased emphasis on results oriented value for money countries are searching for solutions Increased accountability often tops the list The 2017 8 GEM Report shows the entire array of approaches to accountability in education It ranges from countries unused to the concept where violations of the right to education go unchallenged to countries where accountability has become an end in itself instead of a means to inclusive equitable and high quality education and lifelong learning for all The report emphasizes that education is a shared responsibility While governments have primary responsibility all actors schools teachers parents students international organizations private sector providers civil society and the media 0 3 have a role in improving education systems The report emphasized the importance of transparency and availability of information but urges caution in how data are used It makes the case for avoiding accountability systems with a disproportionate focus on narrowly defined results and punitive sanctions In an era of multiple accountability tools the report provides clear evidence on those that are working and those that are not Back cover

Teacher Leadership in International Contexts Charles F. Webber, 2023-03-23 This book addresses the critical gaps among understandings of teacher leadership across organizational and cultural contexts It challenges the use of the term teacher leadership as if there is a widely shared understanding of what it is and what it means for exercising influence and making decisions The book describes how implicit meanings and competing assumptions about teacher leadership may contribute to uncertainty and confusion in school communities The authors caution against the incorporation of teacher leadership in international policy making discussions without adequate consideration of contextual organizational historical and cultural differences that may lead to school community members struggling to accommodate the concept or worse ignoring other frameworks for facilitating more culturally appropriate decision making This book shares the findings of research conducted in several North American European African Latin American and Australasian contexts as part of the International Study of Teacher Leadership Study findings are used to posit contextualized conceptualizations of teacher leadership and to offer a perspective for positioning researchers and practitioners in the international teacher leadership discourse

Imagining Multilingual Schools Ofelia García, Tove Skutnabb-Kangas, Maria E. Torres-Guzmán, 2006 This book brings together visions and realities of multilingual schools throughout the world in order to examine the pedagogical socioeducational and sociopolitical issues that impact on their development and success The chapters describe and analyze pedagogical instructional and policy efforts to develop multilingualism through school with different targeted populations immigrant students indigenous peoples traditional minorities majorities and multiethnic multilingual groups Each contribution many written by well known scholars in the field of bilingual and multilingual education affirms the desirability of multilingualism as a societal resource and as a right of individuals while acknowledging the social economic and political differences that make the acquisition of multilingualism easy for some and difficult for others And yet the book focuses on the

school as a place of promise and resistance having the potential to preserve recover and expand the world s linguistic diversity The introduction written by the co editors identifies the conceptual threads that are developed throughout the chapters But the chapters themselves remind us of the importance of local conditions despite the global pressures of the 21st century in imagining and creating multilingual educational spaces **African Books in Print** ,1978 **Global Meaning Making** Lori Czop Assaf,Patience Sowa,Katina Zammit,2022-08-23 Global Meaning Making disrupts and interrogates the contradictions and tensions in language and literacy global scholarship reimagining global approaches that respect the histories ways of knowing needs hopes and values of voices beyond the western including those from the Global South
