A Tool of Change Or a Tool of Control? ,1973 **Agents of Change** Emma Wilson,2010 **Handbook of Research on Teacher Education and Professional Development** Martin, Christie,Polly, Drew,2016-09-23 With the ever changing climate of education around the globe it is essential that educators stay abreast of the most updated teaching methods and applications To do this fostering teacher education programs that include innovative practices and initiatives within the field is imperative The Handbook of Research on Teacher Education and Professional Development investigates current initiatives and approaches in educational programs Focusing on research studies and theoretical concepts on innovative projects related to teacher education and professional development programs this book is a pivotal reference source for academics professionals students practitioners and researchers **Resources in Education** ,2000-10

Information Technology in the Service Economy: Michael Barrett,Elizabeth Davidson,Catherine Middleton,Janice DeGross,2008-07-17 This book represents the compilation of papers presented at the IFIP Working Group 8.2 conference entitled Information Technology in the Service Economy Challenges and Possibilities for the 21 Century The conference took place at Ryerson University Toronto Canada on August 10-13 2008 Participation in the conference spanned the continents from Asia to Europe with paper submissions global in focus as well Conference submissions included completed research papers and research in progress reports Papers submitted to the conference went through a double blind review process in which the program co chairs an associate editor and reviewers provided assessments and recommendations The editorial efforts of the associate editors and reviewers in this process were outstanding To foster high quality research publications in this field of study authors of accepted papers were then invited to revise and resubmit their work Through this rigorous review and revision process 12 completed research papers and 11 research in progress reports were accepted for presentation and publication Paper workshop sessions were also established to provide authors of emergent work an opportunity to receive feedback from the IFIP 8.2 community Abstracts of these new projects are included in this volume Four panels were presented at the conference to provide discussion forums for the varied aspects of IT service and globalization Panel abstracts are also included here **Narratives of Qualitative Research** Josh Tenenbergh,2024-05-21 Narratives of Qualitative Research uses a novel form of writing about how to do qualitative research called a praxis narrative Each narrative is told from the author's perspective in carrying out one of his past research studies in the social sciences Told chronologically and in a first person voice the narratives position the reader alongside the narrator so as to vicariously experience how research happens in its situated particulars Rather than a set of idealizations and universalized pronouncements the author reveals what really goes on when one is in the thick of complex and challenging research studies the points of trouble along with the successes This will be relevant to researchers who have already undertaken one or more empirical research studies though not necessarily using qualitative approaches and now find themselves facing something

new a new analytic method a new theoretical lens a new form of data collection a new domain of research questions a new rhetorical approach This requires letting go of the secure handholds of prescribed methods and responding to the contingencies that arise in the midst of the research The reader is invited to follow along as the author makes visible his praxis of qualitative research Unlike more conventional texts in this unique alternative the reader can follow the author's journey through his research studies as a way to reorient their conception of qualitative research and their own praxis of it This is fascinating reading for qualitative researchers and students taking qualitative research courses across the social sciences education and behavioural sciences

Frontiers in Statistical Quality Control 8 Hans-Joachim

Lenz, Peter-Theodor Wilrich, 2006-08-08 In Canada acceptance sampling has been used in legal metrology applications for nearly four decades One of its principal uses has been in the quality control of utility meters that measure electricity or natural gas supplied to consumers By law such meters must be inspected for conformance to specification requirements prior to use and be periodically inspected while in use With few exceptions due to the numerous utility companies in the country and their varied practices the meters exist in the form of isolated lots for inspection purposes The proportion of nonconforming meters in a lot has traditionally defined lot quality for utility meter sampling inspection purposes Another principal application of acceptance sampling has been in the quality control of the net contents of packaged products sold in the marketplace Such products include those sold on the basis of such measures as weight volume length and area In this particular application products are also usually inspected on an isolated lot basis for regulatory purposes However lot quality is usually measured on the basis of two criteria for such products the proportion of nonconforming packages in the lot and the lot mean quantity This section reviews Canadian quality control practices in these two areas of application highlighting some of the deficiencies and issues Three class sampling plans are proposed as a possible solution to some of these deficiencies and issues

Citizens in Europe Giovanni Moro, 2011-12-04 In the Community building process citizens are the most invoked and feared but at the same time the least known subject This lack of knowledge nourishes the citizens detachment from the European Union and itself emerged in well known cases such as the French and Dutch referenda on the Constitutional Treaty or the public concern towards the EU policy on immigration This gap is true especially for active citizenship organizations operating in the European policy making not only in Brussels but also and above all at national and local levels and this book is aimed at filling this knowledge gap The book is divided into two parts The first part of the book focuses on the way in which the literature on EU governance and citizenship and on participatory democracy deals with citizen activism in public policy making The second part discusses a number of empirical research projects on civic activism in Europe This book aims on the one hand to bridge the academic debate to more policy oriented debates in which active citizenship organizations and policy makers are involved and on the other hand to bridge theoretical discussion of the nature of the EU with the empirical literature based on the study of civic activism in Europe and at the national level The distinctiveness of the book is that it tries to overcome both the methodological nationalism that affects the research and public debate on the EU the normative attitude of most part of European studies in favor of an approach aimed at describing phenomena and the habit of dealing with civic associations in Europe by referring only to the Brussels Civil Society making it of interest to both policy makers as well as students and scholars in European Studies Political Science Sociology and International Relations
