Developing survey-based measures of gendered freedom of movement for use in studies of agricultural value chains Heckert, Jessica, Myers, Emily, Malapit, Hazel J., 2020-10-22
Freedom of movement is an important aspect of women's empowerment especially in the context of rural transformation as women attempt to transition from subsistence agriculture into more remunerative roles such as involvement in higher nodes of the agricultural value chain which often involves marketing activities and traveling away from the home Nevertheless there is no agreement on how to measure freedom of movement in large scale surveys First we develop a conceptual framework for studying gendered freedom of movement that considers individual and household characteristics along with the broader social environment We then synthesize the existing literature on factors that affect freedom of movement Next we review approaches for measuring freedom of movement that have been used in previous surveys In comparing existing

survey based approaches to the conceptual framework and existing literature we conclude that existing approaches are limited in several ways Foremost they primarily focus on family and household based barriers to freedom of movement and do not consider the barriers present in the broader social environment Additionally they lack consideration for how freedom of movement may affect women s economic participation To address the need for survey based modules for studies that examine how freedom of movement is related to economic participation we propose two new approaches The first approach is an experience based module that asks about frequency of visiting specific places whether they were ever prevented from going to each of these places and various limiting factors The second approach uses vignettes designed to understand the relative strength of different social norms limiting women s freedom of movement and the strength of sanctions that would be imposed for violating these norms Data collected with these modules have the potential to better understand limitations on women s freedom of movement and their consequences

Housing, Citizenship, and Communities for People with Serious Mental Illness John Sylvestre, Geoffrey Nelson, Tim Aubry, 2017-01-10 Housing has emerged as a popular and central topic of research mental health system development and social and mental health policy in recent years The field has rapidly evolved in a number of ways first with the introduction and popularization of the Housing First approach second there are now a growing number of randomized controlled studies to evaluate the lives of people living in this housing and third there is increasing recognition of housing as a cornerstone of mental health policy and community mental health systems Housing

Citizenship and Communities for People with Serious Mental Illness provides the first comprehensive overview of the field. The book covers theory, research, practice, and policy issues related to the provision of housing and the supports that people rely on to get and keep their housing. A special focus is given to issues of citizenship and community life as key outcomes for people with serious mental illness who live in community housing. The book is grounded in the values, research traditions, and conceptual tools of community psychology. This provides a unique lens through which to view the field. It emphasizes housing not only as a component of community mental health systems but also as an instrument for promoting citizenship, social inclusion, social justice, and the empowerment of marginalized people. It serves as a resource for researchers, practitioners, and policy makers looking for up-to-date reviews and perspectives on this field as well as a sourcebook for current and future research and practice trends.

The SAGE Handbook of Family Business Leif Melin, Mattias Nordqvist, Pramodita Sharma, 2013-11-15. The SAGE Handbook of Family Business captures the conceptual map and state of the art thinking on family business, an area experiencing rapid global growth in research and education since the last three decades. Edited by the leading figures in family business studies with contributions and editorial board support from the most prominent scholars in the field, this Handbook reflects on the development and current status of family enterprise research in terms of applied theories, methods, topics investigated, and perspectives on the field's future. The SAGE Handbook of Family Business is divided into following six sections, allowing for ease of navigation while gaining a multi-dimensional perspective and understanding of the field: Part I Theoretical perspectives in family business studies; Part II Major issues in family business studies; Part III Entrepreneurial and managerial aspects in family business studies; Part IV Behavioral and organizational aspects in family business studies; Part V Methods in use in family business studies; Part VI The future of the field of family business studies. By including critical reflections and presenting possible alternative perspectives and theories, this Handbook contributes to the framing of future research on family enterprises around the world. It is an invaluable resource for current and future scholars interested in understanding the unique dynamics of family enterprises under the rubric of entrepreneurship, strategic management, organization theory, accounting, marketing, or other related areas.
