

1 Fold the paper in half sideways to make a rectangle.

2 Fold the corners down and unfold them right away, repeating this for both top corners of your rectangle.

3 Flip the paper over and fold the top of the paper down at the spot where the diagonal creases meet. Unfold right away.

4 Flip over once again, and fold the two edges toward you so they meet each other. The top of your rectangle will fold down to form a triangle.

5 Fold the bottom of the paper up so that its edge meets the bottom of your triangle. Fold the two corners of the triangle up to form the "front legs" of the frog.

6 Fold the sides inward to meet at the center.

7 Fold the bottom of the paper upward so its edge touches the bottom of the "legs," and unfold right away.

8 Insert your fingers into the inside of the flaps, and pull the bottom corners outward to the sides, so that the bottom edge comes up to touch the bottom of the "legs."

9 Fold the corners down so they meet at the bottom of the figure.

10 Fold the bottom corners outward to form the "back legs" of the frog.

11 Create a zigzag fold at the bottom of the figure, folding the bottom half up and then the bottom quarter back down.

12 Your frog is ready to go.

Press its back and release to make it hop!

Jumping Paper Frog Instructions

Sandra W. Russ,Thomas H. Ollendick,2013-11-11 The aim of this book on psychotherapies with children and families is to present a comprehensive overview of the current array of intervention approaches in the child mental health field There is a focus on the integration of theory research and practice throughout the book The book proceeds from the more global presentations of basic theoretical approaches to applications of these approaches with specific problems and populations It then presents more integrated intervention approaches and overviews of the research literature One of the unique features of this book is its focus on future directions for each approach both in clinical practice and in research A second unique feature is its structured format across diverse approaches with a focus on empirical validation of approaches Another innovation is the presentation of interventions that integrate major components of different theoretical approaches Thus the book reflects the current trends in the field of interventions with specific problems and populations empirical validation of the approach and the integration of treatment approaches There are five major sections in this book Part I consists of four chapters that address a variety of issues related to child psychotherapy Chapter 1 by the editors examines the historical roots of child

psychotherapy and explores current trends in the treatment of diverse child disorders. It emphasizes the movement to treatments that work and sets the stage for the chapters that follow.
