Reynolds,2017-12-15 Chinese students in the UK have been increasing in number for many years yet competition from other Western educators and increasing investment in China s own education system has led to concern that UK institutions may soon see a decline in their market share Dr Reynolds addresses this issue in *Chinese Students in UK Further Education* by attempting to understand students experiences from their perspective Beginning with an exploration of why these students choose to come and study in the UK and why they are coming at younger ages the book goes on to discuss topics such as risk technology and diversity in order to understand which factors have the greatest influence on where they choose to study and whether they choose to remain at an institution Drawing on data from two different education institutions providers of GCSE A level programmes for students aged 16 18 years Dr Reynolds attempts to understand what these students experience during their studies how they manage new social

relationships and whether upon course completion they achieved the results they desired at the outset Moreover the book aims to ascertain whether the students feel in hindsight that the decision to risk investing in UK further education was right and what they might communicate about UK study to contacts in China and elsewhere The book examines what further education institutions do well and where they might improve to help develop Chinese students educational experiences As such it will be essential reading for academics researchers and postgraduates in the fields of further education sociology of education international and intercultural education and mobility studies

Slave Revolt on Screen Alyssa Goldstein Sepinwall, 2021-05-28 Recipient of the 2021 Honorary Mention for the Haiti Book Prize from the Haitian Studies Association

In *Slave Revolt on Screen: The Haitian Revolution in Film and Video Games* author Alyssa Goldstein Sepinwall analyzes how films and video games from around the world have depicted slave revolt focusing on the Haitian Revolution 1791-1804 This event the first successful revolution by enslaved people in modern history sent shock waves throughout the Atlantic World Regardless of its historical significance however this revolution has become less well known and appears less often on screen than most other revolutions its story involving enslaved Africans liberating themselves through violence does not match the suffering slaves waiting for a white hero genre that pervades Hollywood treatments of Black history Despite Hollywood's near silence on this event some films on the Revolution do exist from directors in Haiti the US France and elsewhere *Slave Revolt on Screen* offers the first ever comprehensive analysis of Haitian Revolution cinema including completed films and planned projects that were never made In addition to studying cinema this book also breaks ground in examining video games a pop culture form long neglected by historians Sepinwall scrutinizes video game depictions of Haitian slave revolt that appear in games like the *Assassin's Creed* series that have reached millions more players than comparable films In analyzing films and games on the revolution *Slave Revolt on Screen* calls attention to the ways that economic legacies of slavery and colonialism warp pop culture portrayals of the past and leave audiences with distorted understandings

The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee, 2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3.5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to

take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country *EHF Finance Olympiad Solved Question Paper Class 11 (2014)* EHF Learning Media Pvt Ltd, Top 10 teachers, This will help the aspirants to assess the pattern of the real examination paper practice and prepare for cracking the top ranks **Education, Law and Diversity** Neville Harris, 2020-01-09 This new edition of Education Law and Diversity provides extensive updated analysis from a legal perspective of how the education system responds to social diversity and how the relevant social and cultural rights of individuals and groups are affected It spans wide ranging areas of school provision including types of school including faith schools the school curriculum choice of school out of school settings and duties towards children with special needs and disabilities It gives extensive coverage to children's rights in the context of education and includes considerable new material on issues including relationships and sex education exclusion from school home education equal access counter extremism and academisation The new edition also retains and updates areas of debate in the book such as those concerned with multiculturalism and the position of religion in schools It continues to focus on England but also makes reference to other jurisdictions within the UK and internationally It is essential reading for anyone interested in the legal and related policy issues surrounding children's education today **Spatial Questions** Rob Shields, 2013-07-11 Rob Shields provides here an immensely sophisticated and detailed examination of the topological turn He has been examining these issues for some decades and this book will surely become the standard work on cultural and spatial topology John Urry Distinguished Professor Department of Sociology Lancaster University Our understanding of space is crucial to the way in which we understand major social problems and issues and the way we develop and maintain our worldviews Building from a history of philosophical and geographical theories of space Shields presents the importance of spatialisation and cultural topology in social theory and the possibilities that lie within these theoretical tools Innovative and thought provoking this book goes beyond traditional ideas of spatiality and temporality to understand the multiplicity of spatialisations and relates them to everyday life **Paired Maths Handbook** Judi Bamford, Keith J. Topping, 2013-11-12 First Published in 1998 This book is one of a family of three related books consisting of two resource Handbooks for everyday use supported by a more detailed background text for deeper reading and reference The Paired Maths Handbook gives a brief introduction to the rationale materials organisation and evaluation of the Paired Maths method for parental involvement and peer tutoring in mathematics for children aged 4 to 14 This is followed by 12 different practical resources to copy to help with the organisation of the method The main part of the book consists of two dimensional mathematical games to copy complete with instructions and needing minimal other materials These games are particularly suitable for children aged 9 to 12 especially when involved in cooperative learning or peer tutoring in schools or other study centres Attracting and Keeping the Best Teachers Anna

Sullivan, Bruce Johnson, Michele Simons, 2019-08-26 This book challenges dominant thinking about early career teachers and their work. It offers an in depth and critical analysis of policies concerning the work of early career teachers and how they are supported during this critical period when they are highly vulnerable to leaving the profession. Moreover, the book provides examples from actual practice that illustrate how to help early career teachers make a successful transition into the profession. These practices promote early career teachers' development and help the profession as a whole to capitalize on the new knowledge and skills that these teachers bring to their classrooms and their students. The book is divided into two main parts. Part 1 deals with the difficult to define process of retaining early career teachers and its respective chapters consider this broad issue from an international perspective. They explore how policies and practices have an impact on what happens in schools and what it means to be a teacher and to teach. In turn, Part 2 focuses on the need to reconsider the policies and practices that create the problem of early career teachers and offers alternative ways forward. Each chapter addresses a specific aspect of the early career teacher retention issue, contributing to a greater understanding of how we can rethink the work of early career teachers so that they can more successfully transition into the profession.
