1 Hello World!

Hello World! Today I am learning L^AT_EX. L^AT_EX is a great program for writing math. I can write in line math such as $a^2 + b^2 = c^2$. I can also give equations their own space:

$$\gamma^2 + \theta^2 = \omega^2 \tag{1}$$

If I do not leave any blank lines L^AT_EX will continue this text without making it into a new paragraph. Notice how there was no indentation in the text after equation (1). Also notice how even though I hit enter after that sentence and here $\downarrow$ L^AT_EX formats the sentence without any break. Also look how it doesn't matter how many spaces I put between my words.

For a new paragraph I can leave a blank space in my code.

Mastering LaTeX: A Comprehensive Guide to Professional Document Preparation Ms. Sayani Chandra, Dr. Srabani Biswas, Dr. Ipsita Saha, 2025-06-19 Advanced LaTeX in Academia Marco Öchsner, Andreas Öchsner, 2022-01-31
This book contains a comprehensive treatment of advanced LaTeX features. The focus is on the development of high quality documents and presentations by revealing powerful insights into the LaTeX language. The well established advantages of the typesetting system LaTeX are the preparation and publication of platform independent high quality documents and automatic numbering and cross referencing of illustrations or references. These can be extended beyond the typical applications by creating highly dynamic electronic documents. This is commonly performed in connection with the portable document format PDF as well as other programming tools which allow the development of extremely flexible electronic documents.
