The Power Is in the Pairing: MyMathLab for Developmental Mathematics was developed from the experience of authors Andreana Grimaldo and Denise Robichaud, who have helped all types of students online, in lab, and in class achieve success. They pair a streamlined Worktext available separately, where students show their work with an interactive eText, and a fully loaded MyMathLab course. This new All in One offers everything needed to teach the full developmental math sequence in one flexible course solution. It provides the perfect traditional classroom lab or online solution for instructors who embrace the power of the pencil and the immediate feedback and tutorial help that the technology offers.

Built in MyMathLab: MyMathLab is an online homework tutorial and assessment program designed to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts.

For courses in Intermediate and College Algebra: This package includes MyMathLab Intermediate through College Algebra, A Streamlined Experience. College Algebra with Intermediate Algebra: A Blended Course is an innovative new program from the Beecher et al. author team. Designed to meet your changing needs in Intermediate Algebra and College Algebra courses, this program eliminates the repetition in topic coverage across the traditional two-course sequence. The result is a streamlined course experience that makes better use of time and resources. The careful arrangement of topics, one building on the next without redundancy, motivates and creates a solid foundation of knowledge. This new streamlined approach to these courses is complemented by the authors' innovative ability to help you see the math through their focus on visualization, early introduction to functions and graphing, and making connections between math concepts and the real world. Students Robert Blitzer, 2017 Gets them engaged Keeps them engaged Bob Blitzer's use of realistic applications instantly piques students' curiosity about the presence of mathematical concepts in the world around them. These applications are apparent throughout the entire program from his relatable examples, friendly writing style, and thought-provoking features in the textbook to the enhanced digital resources in the MyMathLab course. Blitzer pulls from topics that are relevant to college students, often from pop culture and everyday life, to ensure that students will actually use their learning resources to achieve success. With an expansion of the series to now include a Developmental Math all-in-one text with content spanning prealgebra through intermediate algebra and with an enhanced media program accompanying this revision, developmental students at all levels will see how math applies to their daily lives and culture. Also available with MyMathLab, MyMathLab R is an online homework tutorial and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts.
