

My Ideal City

The presented picture depicts my Ideal City called Greenhills. Literally, it is filled with green trees and plants as it is known to be the most eco-friendly city in town.

It is a democratic city wherein everyone is treated fair and free. Enjoyed their rights and has laws and orders that protect and making sure their safety. It has 13,000 inhabitants with more than 5,000 square kilometre land area. What makes it unique is that every establishment like buildings, houses and etc. are required to have at least 3 trees planted in their area. In that way even if this city will continue to grow, develop and change by technology, we can still make

sure that our children or the future generation will have a green, fresh and healthy city that they can enjoy and live in.

It is my ideal city because in reality it is what we need right now. Throughout the year, our environment's health has been declining and we experienced the consequences. Global warming is one of them. As a human, we should engrave in our mind that we only have one earth. That it can live without humans, but we can't live without it. That's why we should be mindful in our actions, because that will save our earth, our home from dying.
