Thoughtful Times Mary Lax, 2014-08-22 Writing this book is my way of sharing what Ive learned in the course of my life on earth some very unique life experiences and some most of us have in common I believe its this information that ought to be shared more freely by all of us to enable the creation of better ways than wars and prejudices to take care of personal and collective interests and responsibilities Its not possible to make life improvements unless we fully own what is and isnt working well Its also not possible to obtain and provide needed help unless we share what assistance is lacking and available As a favorite professor insisted at the start of every class Our sickness is revealed in our secrets we must uncover and study what we keep so well hidden before its possible to cure it There are two rules essential to assuring this sharing is productive and non hurtful Those key rules are truthfulness and kindness The stories in this book represent what happens when these rules are well applied and when they arent to encourage careful management of all interactions so that all participants are
