*Knausgård and the Autofictional Novel* Claus Elholm Andersen, 2023-12-01 A probing generative analysis of Knausgaard's My Struggle with implications for our understanding of the novel form more broadly in the twenty-first century Norwegian author Karl Ove Knausgaard's six-volume 3600-page autobiographical novel My Struggle has been widely hailed for its heroic exploration of selfhood compulsive readability and restless experimentation with form and genre Knausgaard and the Autofictional Novel explains why Across four chapters Claus Elholm Andersen shows how Knausgaard confronts challenges and rejects the symbiotic relationship between novels and fiction particularly via a technique of autofictionalization The fifth chapter then explores the further breakdown of this relationship in autofiction by Sheila Heti Rachel Cusk and Ben Lerner taking readers to what Lerner called the very edge of fiction

*My Struggle: Book 4* Karl Ove Knausgaard, 2015-04-28 The fourth installment in the beloved internationally celebrated My Struggle series from Karl Ove Knausgaard My Struggle Book 4 finds an eighteen-year-old Karl Ove Knausgaard in a tiny fishing village in northern Norway where he has been hired as a schoolteacher and is living on his own for the first time When the ferocious winter takes hold Karl Ove in the company of the Håfjord locals a warm and earthy group who have spent their lives working drinking and joking together in close quarters confronts private demons reels from humiliations and is elated by small victories We are immersed along with Karl Ove in this world sometimes claustrophobic sometimes serenely beautiful where memories and physical obsessions burn throughout the endless Arctic winter In Book 4 Karl Ove must weigh the realities of his new life as a writer against everything he had believed it would be My Struggle Book Four is an elegiac kind of comic novel and it is pure Karl Ove Knausgaard This is to say it comprises intimate descriptions of daily life descriptions that build to something improbably greater than the sum of their parts Dwight Garner The New York Times

*Object-Oriented Narratology* Marie-Laure Ryan, Tang Weisheng, 2024-06 The quick spread of posthumanism and of critiques of anthropomorphism in the past few decades has resulted in greater attention to concrete objects in critical theories and in philosophy This new materialism or new object philosophy marks a renewal of interest in the existence of objects Yet while their mode of existence is independent of human cognition it cannot erase the relation of subject to object and the foundational role of our experience of things in our mental activity These developments have important implications for narratology Traditional conceptions of narrative define its core components as setting characters and plot but nonhuman entities play a crucial role in characterizing the setting in enabling or impeding the actions of characters and thus in determining plot Marie-Laure Ryan and Tang Weisheng combine a theoretical approach that defines the basic narrative functions of objects with interpretive studies of narrative texts that rely more closely on ideas advanced by proponents of new object philosophy Object Oriented

Narratology opens new theoretical horizons for narratology and offers individual case studies that demonstrate the richness and diversity of the ways in which narrative both Western and non Western deals with humans relationships to their material environment and with the otherness of objects *Beckett Ongoing* Michael Krimper, Gabriel Quigley, 2024-03-13 You must go on I can't go on I'll go on These are some of the most quoted lines written by Samuel Beckett which speak to the impulse of persevering in times of crisis and impossibility Yet few readers of Beckett agree about what this paradoxical formula could mean let alone what mode of engagement it would seem to indicate be it committed autonomous or something else entirely This volume of essays explores what that mode of engagement could be all the while elucidating the ethical and political stakes of the ongoing in both Beckett's life and work Across multiple disciplines in the humanities the authors delve into questions of political subjectivity and representation the ethics of powerlessness and refusal the aesthetics of syncopation and destitution multimedia experiments between genre as well as Beckett's wider impact on transnational itineraries of modernism and philosophy up to the contemporary *The Embarrassment of Being Human* Benjamin Boysen, 2024-12-24 With the message that everything in a sense is alive thus allowing us to join forces with new politico ethical communities stretching across human and nonhuman realms the new materialisms have captivated the minds of many academics artists and intellectuals by stressing that it is time to return to a premodern mindset and discard modernity and its concepts of secularization autonomy and finitude *The Embarrassment of Being Human* not only demonstrates how these magical materialisms are beset by grave theoretical and practical inconsistencies and self contradictions It also demonstrates how their demand for humans to step down and allow for an emancipation of things qualifies the new materialisms as a metaphysics of neoliberalism that reproduces and fortifies the self contradictions rampant in the current neoliberal hegemony While helping us to gain a comprehensive understanding of the tenets of the eerie ills of our epoch the critique of the new materialisms can furthermore inspire us to appreciate how the exact inversion of the new materialist complex amounts to a revitalization of the modern project A revitalization that is critical to think our epoch differently **New and Experimental Approaches to Writing Lives** Jo Parnell, 2019-08-01 With recent advances in digital technology a number of exciting and innovative approaches to writing lives have emerged from graphic memoirs to blogs and other visual verbal virtual texts This edited collection is a timely study of new approaches to writing lives including literary docu memoir autobiographical cartography social media life writing and autobiographical writing for children Combining literary theory with insightful critical approaches each essay offers a serious study of innovative forms of life writing with a view to reflecting on best practice and offering the reader practical guidance on methods and techniques Offering a range of practical exercises and an insight into cutting edge literary methodologies this is an inspiring and thought provoking companion for students of literature and creative writing studying courses on life writing memoir or creative non fiction

**Author Fictions** Ingo Berensmeyer, 2023-10-04 Fictional novelists and other author characters have been a staple of

novels and stories from the early nineteenth century onwards What is it that attracts authors to representing their own kind in fiction *Author Fictions* addresses this question from a theoretical and historical perspective Narrative representations of literary authorship not only reflect the aesthetic convictions and social conditions of their actual authors or their time they also take an active part in negotiating and shaping these conditions The book unfolds the history of such author fictions in European and North American texts since the early nineteenth century as a literary history of literary authorship ranging from the Victorian bildungsroman to contemporary autofiction It combines rhetorical and sociological approaches to answer the question how literature makes authors Identifying author fictions as narratives that address the fragile material conditions of literary creation in the actual and symbolic economies of production Ingo Berensmeyer explores how these texts elaborate and manipulate concepts and models of authorship This book will be relevant to English American and comparative literary studies and to anyone interested in the topic of literary authorship

**Narrative Factuality** Monika Fludernik, Marie-Laure Ryan, 2019-12-16 The study of narrative the object of the rapidly growing discipline of narratology has been traditionally concerned with the fictional narratives of literature such as novels or short stories But narrative is a transdisciplinary and transmedial concept whose manifestations encompass both the fictional and the factual In this volume which provides a companion piece to Tobias Klauk and Tilmann Kppe s *Fiktionalit t Ein interdisziplin res Handbuch* the use of narrative to convey true and reliable information is systematically explored across media cultures and disciplines as well as in its narratological stylistic philosophical and rhetorical dimensions At a time when the notion of truth has come under attack it is imperative to reaffirm the commitment to facts of certain types of narrative and to examine critically the foundations of this commitment But because it takes a background for a figure to emerge clearly this book will also explore nonfactual types of narratives thereby providing insights into the nature of narrative fiction that could not be reached from the narrowly literary perspective of early narratology
